

STAFF REPORT
Final Plat
Bentley Way Division No. 2
July 5, 2022

taking into consideration such factors as access, circulation, traffic safety and control, topography, utilities, and service easements.

Subdivision Ordinance: Boxes with an “X” indicated compliance with the ordinance

REQUIREMENTS	Staff Review
Requirements listed in Section 10-1:	
Building envelopes sufficient to construct a building.	X
Lot dimensions conform to the minimum standards of Zoning Ordinance.	X
Lots have full frontage on, and access to, a dedicated street.	X
Residential lots do not have direct access to arterial streets.	X
Direct access to arterial streets from commercial or industrial lots shall be permitted only where it can be demonstrated that: 1) The direct access will not impede the flow of traffic on the arterial or otherwise create an unsafe condition; 2) There is no reasonable alternative for access to the arterial via a collector street; 3) There is sufficient sight distance along the arterial from the proposed point of access; 4) The proposed access is located so as not to interfere with the safe and efficient functioning of any intersection; and 5) The developer or owner agrees to provide all improvements, such as turning lanes or signals, necessitated for the safe and efficient uses of the proposed access.	N/A
Adequate provisions shall be made for soil preservation, drainage patterns, and debris and waste disposal and collection.	X
Sidelines of lots shall be at, or near, right angles or radial to the street lines. All corner lots shall have a minimum radius of twenty feet on the property line.	X
All property within the subdivision shall be included within a lot or area dedicated for public use.	X
All corner lots zoned RP through R-3, inclusive, shall be a minimum of ten percent larger in area than the average area of all similarly zoned lots in the plat or subdivision under consideration.	N/A
All major streets in subdivision must conform to the major street plan of the City, as set forth in Comprehensive Plan.	N/A
The alignment and width of previously platted streets shall be preserved unless topographical conditions or existing buildings or structures required otherwise.	X
Residential lots adjoining arterial streets shall comply with: 1) Such lots shall have reverse frontage on the arterial streets, 2) such lots shall be buffered from the arterial street by any effective combination of the following: lot depth, earth berms, vegetation, walls or fences, and structural soundproofing, 3) Minimum lot depth shall be 150 ft except where the use of berms, vegetation, and structures can be demonstrated to constitute an effective buffer, 4) Whenever practical, existing roadside trees shall be saved and used in the arterial buffer, 5) Parking areas shall be used as part of the arterial buffer for high density residential uses, 6) Annexation and development agreement shall include provisions for installation and continued	N/A

maintenance of arterial buffers.	
Planning Director to classify street on basis of zoning, traffic volume, function, growth, vehicular & pedestrian safety, and population density.	Private drive aisles

Zoning Ordinance:

11-3-5: Purposed of Commercial Zones

(C) LC Limited Commercial Zone. This zone provides a commercial zone for retail and service uses which supply the daily household needs of the City’s residents. This Zone is usually located on major streets contiguous to residential uses. This zone is characterized by smaller scale commercial uses which are easily accessible by pedestrians and non-motorized vehicles from the surrounding residential neighborhoods, although larger scale developments such as big-box stores may still serve as anchors. Connectivity is provided with walkways that provide access to and through the development site. Parking for vehicles is understated by the use of landscaping, location, and provision of pedestrian walkways to the businesses

11-2-6: Standards For Allowed Uses

(O)(2) In the LC Zone, multi-unit developments shall comply with the development standards of the R3A Zone.

11-3-4: Purpose of Residential Zones

(G) R3A Residential Mixed Use Zone. To provide for a mix of uses in which the primary use of the land is for residential purposes, but in which office buildings and certain other uses of a semi-commercial nature may be located. Characteristic of this Zone is a greater amount of automobile traffic, greater density, and a wider variety of dwelling types and uses than is characteristic of the R3 Residential Zone. While office buildings and certain other uses of a semi-commercial nature may be located in the Zone, the R3A Zone is essentially residential in character. Therefore, all uses must be developed and maintained in harmony with residential uses. This zone should be located along major streets such as arterials and collectors.

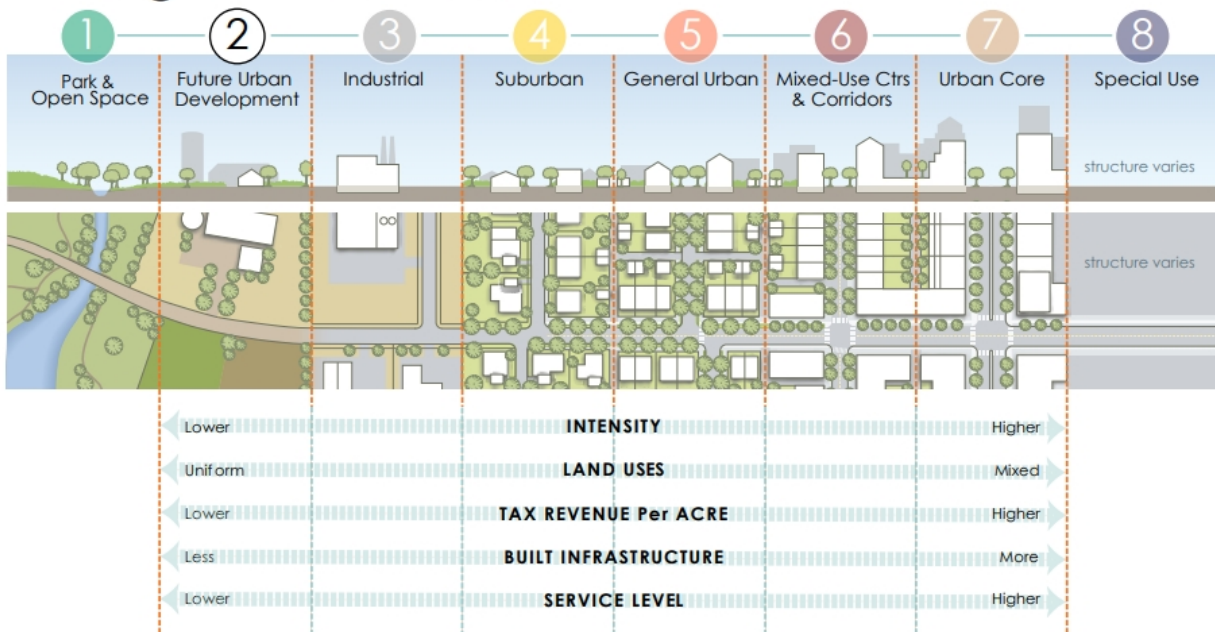

11-3-4: DIMENSIONAL STANDARDS FOR RESIDENTIAL ZONES.

Table 11-3-1: Standards for Residential Zones

	RE	RP	R1	R2	TN	R3	R3A	RMH
Lot Area								
Lot Area Minimum in ft ²	1 acre*	12,000	7,000	6,000*	3,000*	5,000*	5,000	3,000
Lot Area Maximum in ft ²			13,500*					
Site Width								
Site Width at Front Setback, Minimum in ft.	150	60	50	50	25	50	50	25
Setbacks, Minimum in ft.								
Front	40	30*	25*	20*	15*	15	15	15
Front Maximum in ft.					20*			
Side	20	7.5/10*	6	6	5	6	6	5
Rear	40	25	25	25	10	25*	25*	10
Lot Coverage, Building Height, and Density								
Maximum Lot Coverage in %	30	40	40	80	50	80	80	50
Maximum Building Height in ft*	24	24	24	36	*			24
Maximum Density in net units/acre	1	4	6	17	15	35	35	35
*See explanations, exceptions and qualifications in Section 11-3-4A,B,C of this Zoning Code.								

Comprehensive Plan:

Imagine!F Transects

6

6. Mixed-Use Centers & Corridors

Snapshot: The Mixed-Use Centers and Corridors Transect denotes areas where people tend to shop, eat and gather. These areas include all housing types but generally at a more intense scale than other areas. These areas also include mixed-use buildings, recreation centers and commercial uses. Mixed-Use Centers and corridors may vary in scale from large, regional commercial centers with supportive housing to smaller commercial pockets called walkable centers that support a well-connected, walkable neighborhood.

Local examples: Northgate Mile and 1st Street corridors, Intersection of 65th South and 5th West, Intersection of Skyline and Broadway, Snake River Landing
