

Idaho Falls Parks & Rec Facility Use Protocols

The following protocols will be in place while use of facilities for basketball

- All individuals must wear a mask in all public areas as outlined by the mask mandate from East Idaho Public Health. This includes areas in which a six-foot distance cannot be maintained from any person who is not a member of their household and includes such times as entering or exiting the facility or using the restrooms.
- The City will make face coverings and sanitization available at the entrance lobby.
- **2 (two)** spectator per participant may enter the facility.
- Once the game is over please exit the facility as quickly as possible to allow enough time to disinfect the bleachers before the next game.
- Each player should have their own water bottle. Fountains will be available for teams to fill up their individual player water bottles.
- Teams arriving to play are welcome to come inside building once the A Frame poster is colored **GREEN** along the top. If it is **RED**, please wait to come inside until the A frame is flipped to **GREEN**. This will help with overcrowding.
- Players will not be required to wear masks while playing the game.
