(B) To prevent the introduction of pollutants into the POTW which will pass through the POTW, inadequately treated, into receiving waters of or otherwise be incompatible with the POTW;

(C) To ensure that the quality of the wastewater treatment plant sludge is maintained at a level which allows its use and disposal in compliance with applicable statutes and regulations;

(D) To protect POTW personnel who may be affected by wastewater and sludge in the course of their employment and to protect the general public;

(E) To improve the opportunity to recycle and reclaim wastewater and sludge from the POTW.

(F) To establish an equitable distribution of the cost of operating the POTW;
and

(G) To establish an equitable means, through the collection of a sewer main connection fee, of requiring persons connecting to an existing sewer main which directly benefits their property, to participate in the costs of installing such main; and

(H) To establish an equitable means through a sewer service connection fee of requiring persons who connect to the sanitary sewer system and the wastewater treatment plant to participate in the capital costs of constructing the entire system and to pay the direct costs of making such connection. - (8) Trucked or hauled pollutants, except at discharge points designated by the City;
- (9) Noxious or malodorous liquids, gases, solids, or other wastewater which either singly or by interaction with other wastes, are sufficient to create a public nuisance or a hazard to life or health, or to prevent entry into the sewers for maintenance or repair;
- (10) Wastewater which imparts color which cannot be removed by the treatment process, such as, but not limited to, dye wastes and vegetable tanning solutions, which consequently imparts color to the treatment plant's effluent, thereby violating the City's NPDES permit. Color in combination with turbidity shall not cause the treatment plant effluent to reduce the depth of the compensation point for photosynthetic activity by more than ten percent (10%) from the seasonably established norm for aquatic life;
- (11) Wastewater containing any radioactive wastes or isotopes except as specifically approved in writing by the Director in compliance with applicable State or Federal regulations;
- (12) Storm water, surface water, ground water, artesian well water, roof runoff, subsurface drainage, swimming pool drainage, condensate, deionized water, non-contact cooling water, and unpolluted wastewater, unless specifically authorized by the Director;
- (13) Any sludges, screenings, or other residues from the pretreatment of industrial wastes or from industrial processes;
- (14) Medical wastes, except as specifically authorized by the Director;
- (15) Wastewater causing, alone or in conjunction with other sources, the WWTP's effluent to fail a toxicity test;

- (16) Detergents, surface-active agents, or other substances which may cause excessive foaming in the POTW;
- (17) Any liquid, solids, or gases which by reason of their nature or quantity are, or may be, sufficient either alone or by interaction with other substances to cause fire or explosion or be injurious in any other way to the POTW or to the operation of the POTW. At no time shall two (2) successive readings on an explosion meter, at the point of discharge into the system (or at any point in the system), be more than five percent (5%) nor any single reading over ten percent (10%) of the lower explosive limit (LEL) of the meter;
- (18) Grease, garbage other than ground garbage, animal guts or tissues, paunch manure, bones, hair, hides or fleshings, entrails, whole blood, feathers, ashes, cinders, sand, spent lime, stone or marble dusts, metal, glass, straw, shavings, grass clippings, rags, spent grains, spent hops, waste paper, wood, plastics, gas, tar asphalt residues, residues from refining or processing of fuel or lubricating oil, mud, or glass grinding or polishing wastes.;
- (19) Any substance which will cause the POTW to violate its NPDES and/or other disposal system permits;
- (20) Any wastewater, which in the opinion of the Director can cause harm either to the sewers, WWTP or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property or constitute a nuisance, unless allowed under a special agreement approved in writing by the Director, except that no special waiver shall be given from categorical pretreatment standards;
- (21) The contents of any tank or other vessel owned or used by any person in the business of collecting or pumping sewage, effluent, septic tank waster, or other wastewater unless said person has first obtained testing and approval as may be generally required by the City and paid all fees assessed for the privilege of said discharge;
- (22) Any hazardous waste as prohibited or regulated by the State of Idaho or 40 CFR Part 261;
- (23) Persistent pesticides and/or pesticides regulated by the Federal Insecticide Fungicide Rodenticide Act (FIFRA).

Pollutants, substances or wastewater prohibited by this section shall not be processed or stored in such a manner that they could be discharged to the POTW. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3297. 2-13-20)

8-1-10: NATIONAL PRETREATMENT STANDARDS: CATEGORICAL STANDARDS: The National Categorical Pretreatment Standards as amended and promulgated by EPA pursuant to the Act and as found at 40 CFR Chapter I, Subchapter N, Parts 405-471, are hereby incorporated and shall be enforceable under this Chapter.(Ord. 2223, 1-9-97; Ord. 2684, 12-14-06)

8-1-11: STATE REQUIREMENTS: State requirements and limitations on discharges to the POTW shall be met by all Users which are subject to such standards in any instance in which they are more stringent than Federal requirements and limitations, or those in this Chapter or any other applicable Chapter of this Code. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16)

8-1-12: LOCAL LIMITS: The following pollutant limits are established to protect against pass-through and interference. No person shall discharge wastewater containing pollutant levels in excess of the following daily maximum allowable discharge limits.

Parameter	Daily Maximum
Arsenic	0.04 mg/l
Cadmium	0.26 mg/l
Chromium (total)	2.77 mg/l
Copper	1.93 mg/l
Cyanide	1.04 mg/l
Lead	0.29 mg/l
Mercury	0.002 mg/l
Nickel	2.38 mg/l
Oil and grease (petroleum or mineral oil products)	100.00 mg/l
Oil and grease (animal and vegetable-based)	250.00 mg/l
Silver	0.43 mg/l
Zinc	0.90 mg/l

The above limits apply at the point where the wastewater is discharged to the POTW (end of the pipe). All concentrations for metallic substances are for "total" metal unless indicated otherwise. The Director may impose mass limitations in addition to, or in place of, the concentration-based limitations above. Where a User is subject to a categorical pretreatment standard and a local limit for a given pollutant, the more stringent limit or applicable pretreatment standard shall apply.

POTW's may develop Best Management Practices ("BMP's") to implement paragraphs as listed in 40 CFR 403.5 (c) (1) and (2). Such BMP's shall be considered local limits and Pretreatment Standards for the purpose of this Chapter and Section 307 (d) of the Act. (Ord. 2278, 4-23-98; Ord. 2609, 7-28-05; Ord. 2684, 12-14-06)

8-1-13: **RIGHT OF REVISION:** City reserves the right to establish, by ordinance or in wastewater discharge permits, more stringent standards or requirements on discharges to the POTW. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16)

8-1-14: **DILUTION:** No User shall ever increase the use of process water, or in any way attempt to dilute a discharge, as a partial or complete substitute for adequate treatment to achieve compliance with an applicable pretreatment standard or requirement unless expressly authorized by an applicable pretreatment standard or requirement. The Director may impose mass limitations on Users which they believe may be using dilution to meet applicable pretreatment standards or requirements, or in other cases when the imposition of mass limitations is appropriate. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16)

8-1-15: **SPECIAL AGREEMENTS:** City reserves the right to enter into special agreements with Users setting out special terms under which they may discharge to the POTW. In no case will a special agreement waive compliance with a categorical pretreatment standard or federal pretreatment requirement. However, the User may request a net gross adjustment to a Categorical Standard in accordance with 40 CFR 403.15. They may also request a variance from the categorical pretreatment standard from the approval authority in accordance with 40 CFR 403.13. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-16: **APPROVAL REQUIRED FOR WASTEWATER:** No User shall discharge wastewater into the POTW without having first filed an application with the Director and having obtained a permit to discharge wastewater into the POTW. At the time of such application, the applicant shall provide sufficient information concerning the nature, concentration and quantity of their waste or such other information as may be reasonably necessary for the Director to assure compliance with this Chapter. Upon receipt of said application, the Director shall review the same and if necessary, inspect the property and facilities of the applicant to determine if said facilities are in compliance with the provisions of this Chapter. Upon making such determination, the Director shall forthwith issue a permit to the applicant authorizing discharge of waste to the public sewer. All significant industrial Users shall in addition comply with the provisions of this Chapter. Such permit may be issued upon conditions reasonably necessary to assure compliance with this Chapter, including, but not limited to, the following:

- (A) Limits on the average and maximum wastewater constituents and characteristics;

- (B) Limits on average and maximum rate and time of discharge or requirements for flow regulations and equalization;
- (C) Requirements for installation and maintenance of inspection and sampling facilities;
- (D) Conditions concerning sampling locations, frequency of sampling, number, types and standards for tests and a reporting schedule therefor;
- (E) Compliance schedules;
- (F) Periodic submission of technical reports or other discharge reports necessary to determine compliance with this Chapter, and the frequency of monitoring of the discharge;
- (G) Any other condition reasonably necessary to assure compliance with this Chapter.
- (H) Statement of Permit Duration.
- (I) Statement of Nontransferability.

(Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-17: **PRETREATMENT FACILITIES:** Users shall provide necessary wastewater treatment as required to comply with this Chapter and shall achieve compliance with all applicable pretreatment standards and requirements set out in this Chapter within the time limitations specified by the EPA, the State, or the Director, whichever is more stringent. Any facilities required to pretreat wastewater to a level acceptable to City shall be provided, operated, and maintained at the User's expense. Detailed plans showing the pretreatment facilities and operating procedures shall be submitted to City for review, and shall be acceptable to City before construction of the facility. The review of such plans and operating procedures will in no way relieve the User from the Responsibility of modifying the facility as necessary to produce an acceptable discharge to the City under the provisions of this Chapter. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16)

8-1-18: **DEADLINES FOR COMPLIANCE WITH APPLICABLE PRETREATMENT REQUIREMENTS:** Compliance by existing Users covered by categorical pretreatment standards shall be accomplished within three (3) years of the date the Standard is effective unless a shorter compliance time is specified in the appropriate Standard. The City shall establish a final compliance deadline date for any existing User not covered by categorical pretreatment standards or for any categorical User when the local limits for said User are more restrictive than the Federal Categorical Pretreatment Standards.

New Source Dischargers and New Users are required to comply with applicable pretreatment standards within the shortest feasible time not to exceed ninety (90) days from the beginning of discharge. New Sources and New Users shall install and have in operating condition, and shall

start-up all pollution control equipment required to meet applicable pretreatment standards before beginning to discharge.

Any wastewater discharge permit issued to a Categorical User shall not contain a compliance date beyond any deadline date established in EPA's Categorical Pretreatment Standards. Any other existing User or a categorical User that must comply with a more stringent local limit, which is in non-compliance with any local limits shall be provided with a compliance schedule placed in an industrial wastewater permit to ensure compliance within the shortest time feasible.

(Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16)

8-1-19: **ADDITIONAL PRETREATMENT MEASURES:**

(A) Whenever deemed necessary, the Director may require Users to restrict their discharge during peak flow periods, designate that certain wastewater be discharged only into specific sewers, relocate and/or consolidate points of discharge, separate sewage wastestreams from industrial wastestreams, and such other conditions as may be necessary to protect the POTW and determine the User's compliance with the requirements of this Chapter.

(B) Grease, oil, and sand interceptors shall be provided when, in the opinion of the Director, they are necessary for the proper handling of wastewater containing excessive amounts of grease and oil, or sand, except that such interceptors shall not be required for residential Users. All interception units shall be of type and capacity approved by the Director and shall be so located to be easily accessible for cleaning and inspection. Such interceptors shall be inspected, cleaned, and repaired regularly, as needed, by the User at its expense.

(C) Users with the potential to discharge flammable substances may be required to install and maintain an approved combustible gas detection meter. (Ord. 2223, 1-9-97; Ord. 2609, 7-28-05; Ord. 2684, 12-14-06)

8-1-20: **ACCIDENTAL SPILL PREVENTION PLANS:** The Director may require any User to develop and implement an accidental spill prevention plan (ASPP) or slug control plan. Where deemed necessary by City, facilities to prevent accidental discharge or slug discharges of pollutants shall be provided and maintained at the User's cost and expense. An accidental spill prevention plan or slug control plan showing facilities and operating procedures to provide this protection shall be submitted to City for review and approval before implementation. City shall determine which User is required to develop a plan and require said plan to be submitted within thirty (30) days after notification by City. Each User shall implement its ASPP as submitted or as modified after such plan has been reviewed and approved by City. Review and approval of such plans and operating procedures by City shall not relieve the User from the responsibility to modify its facility as necessary to meet the requirements of this Chapter.

(A) Any User required to develop and implement an accidental spill prevention plan shall submit a plan which addresses, at a minimum, the following:

- a. Description of discharge practices, including non-routine batch discharges;

- b. Description of stored chemicals;
 - c. Procedures for immediately notifying the POTW of any accidental or slug discharge. Such notification must also be given for any discharge which would violate any of the standards in Sections 8-1-9 through 8-1-12 of this Chapter; and
 - d. Procedures to prevent adverse impact from any accidental or slug discharge. Such procedures include, but are not limited to, inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations, control of plant site runoff, worker training, building of containment structures or equipment, measures for containing toxic organic chemicals (including solvents), and/or measures and equipment for emergency response.
- (B) Users shall notify the City Wastewater Treatment Plant immediately after the occurrence of a slug or accidental discharge of substances regulated by this Chapter. The notification shall include location of discharge, date and time thereof, type of waste, concentration and volume, and corrective actions. Any affected User shall be liable for any expense, loss, or damage to the POTW, in addition to the amount of any fines imposed on the City on account thereof under State or Federal law.
- (C) Within five (5) days following an accidental discharge, the User shall submit to the Director a detailed written report describing the cause of the discharge and the measures to be taken by the User to prevent similar future occurrences. Such notification shall not relieve the User of any expense, loss, damage, or other liability which may be incurred as a result of damage to the POTW, fish kills, or any other damage to person or property nor shall such notification relieve the User of any fines, civil penalties, or other liability which may be imposed by this Chapter or other applicable law.
- (D) Signs shall be permanently posted in conspicuous places on the User's premises advising employees whom to call in the event of a slug or accidental discharge. Employers shall instruct all employees who may cause or discover such a discharge with respect to emergency notification procedures. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16)

8-1-21: CONNECTION TO SANITARY SEWER REQUIRED: Every building or structure located within the City and from which any wastewater is discharged shall be connected to the public sanitary sewer if such sewer is within two hundred feet (200') of such building or structure, unless otherwise approved by Public Works. All connections to the sewer shall be made at the expense of the owner or person having control thereof. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-22: SEWER SERVICE LINE: A separate and independent sewer service line shall be installed for every building using or required to use the POTW. Separate sewer service lines are not required for each space in a travel trailer court nor for any dwelling unit having a total living area of five hundred square feet (500') or less. (Ord. 2278, 4-23-98; Ord. 3094, 9-22-16)

8-1-23: SEWER SERVICE CONNECTION FEES:

- (A) Permits Required: No person shall install or alter any sanitary sewer within the City, or tap onto or connect to any sanitary sewer line, whether lateral, main or interceptor, without first obtaining a permit from City.
- (B) Sewer Connection Fees: Before any permit is issued for the installation or alteration of any sanitary sewer or before any connection is made to any sanitary sewer line, whether lateral, main or interceptor, the applicant shall pay to City a sewer connection fee in an amount set from time to time by Resolution of the Council. Where an existing structure/connection is modified, the fee charged shall be based on the modification.
- (C) Sewer Main Connection Charge. Before connecting to any sewer main constructed in whole or in part at City expense, all persons desiring such connection shall pay a sewer main connection fee in an amount set from time to time by Resolution of the Council per front foot of property owned by such person and fronting upon a street or public right of way or easement within which a sewer main is located. Despite the foregoing, if any person requests annexation to the City and as part of such annexation also requests connection to such sewer main, then the fee shall be due in full at the time such property is annexed to City. If any such property is located upon a corner or is bounded by two or more streets in which a sewer main is located, the calculation for the fee shall be based upon the frontage of the longest street in which a sewer main is located. All sewer mains within City shall be deemed to have been constructed in whole or in part at City expense, unless the applicant presents written evidence conclusively demonstrating such main was constructed entirely from private monies or was constructed entirely with funds from a state or federal grant. If any person constructs a sewer main entirely at their expense, City may, by written agreement, pay over to such person all sewer main connection fees collected by City from any other person who subsequently connects to such sewer main.

(Ord. 2312, 2-25-99; Ord. 2964, 8-14-14; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20; Ord. 3335, 24-9-20)

8-1-24: SEWER SERVICE REPAIR: When any sewer service line or private sewer connected to the public sewer becomes obstructed, broken, or out of order, the owner, agent, or tenant of such premises shall repair the same at his own expense. (Ord. 2278, 4-23-98; Ord. 3094, 9-22-16)

8-1-25: PERMIT REQUIRED TO WORK ON PUBLIC SEWER: No person shall uncover, disturb, construct, repair, or extend any part of the public sewer or any private sewer located within a public right of way without first obtaining a sewer service excavation permit. No person shall extend any private sewer or sewer service beyond the limits of the building or property for which a permit has been given without obtaining a permit for the desired extension. The issuance of a sewer service permit shall not be construed to permit any work for which a public right of way excavation permit is required by this Code. (Ord. 2278, 4-23-98; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-26: NOTICE OF INSPECTION: No person shall make a new connection to any sewer without first giving advance notice pursuant to the requirements of this Code. Notices given on any Saturday or legal holiday will not be accepted. All connections must be made in accordance with the Standard Drawings and Specifications and shall be inspected by City before the trench is filled. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3186, 05-24-18; Ord. 3297, 2-13-20)

8-1-27: RIGHT TO REVOKE PERMISSION: All sewer service excavation permits issued under this Chapter may be revoked upon failure of the holder of the permit to comply with this Chapter or the construction standards set forth in the Standard Drawings and Specifications. (Ord. 2223, 1-9-97; Ord. 3186, 05-24-18)

8-1-28: SEWER CONSTRUCTION SPECIFICATIONS: All construction or reconstruction on public and private sewer services shall be in accordance with Standard Drawings and Specifications. (Ord. 2223, 1-9-97; Ord. 3186, 05-24-18)

8-1-29: SUBMISSION OF INFORMATION: Plans, specifications and any other pertinent information relating to proposed pretreatment or processing facilities shall be submitted for approval to the approving authority prior to the start of their construction if the effluent from such facilities is to be discharged into the public sewers. (Ord. 2223, 1-9-97)

8-1-30: INJURY TO SEWERAGE SYSTEM UNLAWFUL: No person shall willfully or negligently break, damage, destroy, uncover, deface, tamper with, or prevent access to any structure, appurtenance or equipment, or other part of the POTW. No person shall deposit into the POTW any substance which will likely obstruct the flow of wastewater in the POTW. . (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16)

8-1-31: STATE REQUIREMENT: State standards and limitations on discharges to the POTW shall be met by all Users where such standards are more stringent than the standards in this or any other applicable Chapter. (Ord. 2223, 1-9-97)

(Ord. 2223, 1-9-97; Ord. 3094, 9-22-16)

8-1-32: WASTEWATER DISCHARGE PERMIT REQUIREMENTS: No significant industrial User shall discharge wastewater into the POTW without first obtaining a wastewater discharge permit from the Director. Any violation of the terms and conditions of a wastewater discharge permit shall be deemed a violation of this Chapter and subjects the wastewater discharge permittee to the sanctions set forth in this Chapter. Obtaining a wastewater discharge permit does not relieve a permittee of its obligation to comply with all federal and state pretreatment standards or requirements or with any other requirements of Federal, State, and local law. The Director may require other Users, including liquid waste haulers, to obtain wastewater discharge permits (as necessary) to carry out the purposes of this Chapter. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-33: WASTEWATER DISCHARGE PERMITS—EXISTING SIU’S: Any SIU that was discharging wastewater into the POTW prior to the Effective Date and that wishes to continue

such discharges in the future shall submit, within sixty (60) days after notification by the Director a permit application to City in accordance with Section 8-1-37 of this Chapter. The City's notification to SIU's covered by categorical pretreatment standards will be in ample time to ensure that the SIU's comply with the one hundred eighty (180) day submittal deadline date established in 40 CFR § 403.12(b). (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-34: **WASTEWATER DISCHARGE PERMITS—NEW SOURCES AND NEW USERS:** At least ninety (90) days prior to the anticipated start-up, any New Source, which is a source that becomes a User subsequent to the proposal of an applicable categorical pretreatment standard that is later promulgated, and any New User considered by City to fit the definition of a SIU, shall apply for a wastewater discharge permit and will be required to submit to City at least the information listed in paragraphs (A) through (E) of Section 8-1-37 of this Chapter. A New Source or New User cannot discharge without first receiving a wastewater discharge permit from City. New Sources and New Users shall be required to include in their application information on the method of pretreatment the User intends to use to meet applicable pretreatment standards. New Sources and New Users shall give estimates of the information requested in paragraphs (D) and (E) of Section 8-1-36. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-35: **WASTEWATER DISCHARGE PERMITS; EXTRA-JURISDICTIONAL USERS:** Any Existing User who is located beyond City limits and who is required to obtain a wastewater discharge permit shall submit a wastewater discharge permit application as outlined in Section 8-1-36. New Source and New Users located beyond City limits are also required to obtain a wastewater discharge permit in accordance with Section 8-1-36 of this Chapter. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-36: **WASTEWATER DISCHARGE PERMIT APPLICATION CONTENTS:** All Users required to obtain a wastewater discharge permit must submit, at a minimum, the following information. The Director shall approve a form to be used as a permit application. Categorical Users submitting the following information shall be deemed to have complied with 40 CFR 403.12(b).

- (B) **Permits.** The User shall submit a list of any environmental control permits held by or for the facility;
- (C) **Description of Operations.** The User shall submit a brief description of the nature, average rate of production, and Standard Industrial Classification of the operation(s) carried out by such Industrial User, including a list of all raw materials and chemicals used or stored at the facility which are, or could accidentally or intentionally be, discharged to the POTW; number and type of employees; hours of operation; each product produced by type, amount, process or processes, and rate of production; type and amount of raw materials processed (average and maximum per day) and the time and duration of discharges. This description

should also include a schematic process diagram which indicates points of discharge to the POTW from the regulated or manufacturing processes; site plans; floor plans; mechanical and plumbing plans; and details to show all sewers, sewer connections, inspection manholes, sampling chambers and appurtenances by size, location and elevation.

(D) Flow Measurement.

(1) Categorical User: The User shall submit information showing the measured average daily and maximum daily flow, in gallons per day, to the POTW from each of the following:

- (a) Regulated or manufacturing process streams; and
- (b) Other streams as necessary to allow use of the combined wastestream formula of 40 CFR 403.6(e).

(2) Non-Categorical User. The User shall submit information showing the measured average daily and maximum daily flow, in gallons per day, to the POTW from each of the following:

- (a) Total process flow, wastewater treatment plant flow, total plant flow or individual manufacturing process flow as required by the Director.

City may allow for verifiable estimates of these flows where justified by cost or feasibility considerations.

(E) Measurements of Pollutants.

(1) Categorical User:

- (a) The User shall identify the applicable pretreatment standards for each regulated or manufacturing process.
- (b) In addition, the User shall submit the results of sampling and analysis identifying the nature and concentration (or mass where required by the Categorical Pretreatment Standard or as required by City) of regulated pollutants (including standards contained in Sections 8-1-9 through 8-1-12 of this Chapter, as appropriate) in the discharge from each regulated or manufacturing process. Both daily maximum and average concentration (or mass, where required) shall be reported. The sample shall be representative of daily operations and shall conform to sampling and analytical procedures outlined in Sections 8-1-56 through 8-1-58 of this Chapter.
- (c) The User shall take a minimum of five (5) representative sample to compile that data necessary to comply with the requirements of this paragraph.
- (d) Where an alternate concentration or mass limit has been calculated in accordance with 40 CRF 403.6(e) for a categorical User covered by a

categorical pretreatment standard, this adjusted limit along with supporting data shall be submitted as part of the application.

(2) Non-Categorical User.

- (a) The User shall identify the applicable pretreatment standards for its wastewater discharge.
 - (b) In addition, the User shall submit the results of sampling and analysis identifying the nature and concentration (or mass where required by City) of regulated pollutants contained in Sections 8-1-9 through 8-1-12 of this Chapter, as appropriate in the discharge. Both daily maximum and average concentration (or mass, where required) shall be reported. The sample shall be representative of daily operations and shall conform to sampling and analytical procedures outlined in Sections 8-1-56 through 8-1-58 of this Chapter.
 - (c) The User shall take a minimum of five (5) representative sample to compile that data necessary to comply with the requirements of this Subsection.
 - (d) Where the Director has developed alternate concentration or mass limits because of dilution, this adjusted limit along with supporting data shall be submitted as part of the application.
- (F) Certification. A statement, reviewed by an authorized representative of the User and certified by a qualified professional as outlined in Section 8-1-37, indicating whether the applicable pretreatment standards are being met on a consistent basis, and, if not, whether additional operation and maintenance (hereafter referred to as "O and M") or additional pretreatment is required for the User to meet the applicable pretreatment standards and requirements.
- (G) Compliance Schedule. If additional pretreatment or O and M will be required to meet the applicable Pretreatment Standards, the User shall submit the shortest schedule by which the User will provide such additional pretreatment and/or O and M. The User's schedule shall conform with the requirements of Section 8-1-48 of this Chapter. The completion date in this schedule shall not be later than the compliance date established pursuant to Section 8-1-18 of this Chapter.
- (1) Where the User's Categorical Pretreatment Standard has been modified by removal allowance (40 CFR 403.7), the combined wastestream formula (40 CFR 403.6(e)), or a Fundamentally Different Factors variance (40 CFR 403.13) at the time the User submits the report required by this paragraph, the information required by paragraphs (F) and (G) of this Section shall pertain to the modified limits.
 - (2) If the Categorical Pretreatment Standard is modified by a removal allowance (40 CFR 403.7), the combined wastestream formula (40 CFR 403.6(e)), and/or a Fundamentally Different Factors variance (40 CFR 403.13) after the User submits the report required by paragraphs (F) and (G) of this Section, then a report

containing modified information shall be submitted by the User within sixty (60) days after the new limit is approved.

- (H) The User shall submit any other information as may be deemed necessary by the Director to evaluate the wastewater discharge permit application.

Incomplete or inaccurate applications will not be processed and will be returned to the User for revision.

(I) **Baseline Reporting Requirements**

Reporting requirements for industrial users upon effective date of Categorical Pretreatment Standard—baseline report. Within one hundred eighty (180) days after the effective date of a Categorical Pretreatment Standard or one hundred eighty (180) days after the final administrative decision made upon a category determination submission under §403.6(a)(4) of the Act, whichever is later. Existing Industrial Users subject to such Categorical Pretreatment Standards and currently discharging to or scheduled to discharge to a Publicly Owned Treatment Works (POTW) shall be required to submit to the Control Authority a report which contains the information listed in paragraphs (A)-(H) of this Section. - (B) For Users subject to equivalent mass or concentration limits established by City in accordance with procedures established in 40 CFR 403.6 (c), this report shall contain a reasonable measure of the User's long-term production rate. For all other Users subject to Categorical Pretreatment Standards expressed in terms of allowable pollutant discharge per unit of production (or other measure of operation), this report shall include the User's actual production during the appropriate sampling period. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-47: PERIODIC COMPLIANCE REPORT:

- (A) Any User that is required to have an industrial waste discharge permit and performs self-monitoring shall submit to City during the months of June and December, unless required on other dates or more frequently by City, a report indicating the nature of the effluent over the previous reporting period. The frequency of monitoring shall be as prescribed within the industrial waste discharge permit. At a minimum, Users shall sample their discharge at least twice per year.
- (B) The report shall include a record of the concentrations (and mass if specified in the wastewater discharge permit) of the pollutants listed in the wastewater discharge permit that were measured and a record of all flow measurements (average and maximum) taken at the designated sampling locations, and shall also include any additional information required by this Chapter or the wastewater discharge permit. Production data shall be reported if required by the wastewater discharge permit. Both daily maximum and average concentration (or mass, where required) shall be reported. If a User sampled and analyzed more frequently than what was required by City or by this Chapter using methodologies in 40 CFR Part 136, it must submit all results of sampling and analysis of the discharge during the reporting period.
- (C) Any User subject to equivalent mass or concentration limits established by City or by unit production limits specified in the applicable Categorical Standards, shall report production data as outlined in Section 8-1-46(B) of this Chapter.
- (D) If City calculated limits to factor out dilution flows or non-regulated flows, the User will be responsible for providing flows from the regulated process flows, dilution flows, and non-regulated flows.
- (E) Flows shall be reported on the basis of actual measurement, provided, however, City may accept reports of average and maximum flows estimated by verifiable techniques if City determines that an actual measurement is not feasible.
- (F) Flows shall be reported on the basis of actual measurement, provided, however, the City may accept reports of average and maximum flows estimated by verifiable techniques if the City determines that an actual measurement is not feasible.
- (G) Discharges sampled shall be representative of the User's daily operations and shall be taken in accordance with the requirements specified in Sections 8-1-56 through 8-1-58 of this Chapter.

- (H) City may require reporting by Users that are not required to have an industrial wastewater discharge permit if information or data is needed to establish a sewer charge, determine the treatability of the effluent or determine any other factor which is related to the operation and maintenance of the sewer system.
- (I) City may require self-monitoring by the User or, if requested by the User, may agree to perform the periodic compliance monitoring needed to prepare the periodic compliance report required under this Section. Self-monitoring shall be subject to the approval of the City. If City agrees to perform such periodic compliance monitoring, it may charge the User for such monitoring, based upon the costs incurred by City for the sampling and analyses. Any such charges shall be added to the normal sewer charge and shall be payable as part of the User's sewer billing statement. City shall be under no obligation to perform periodic compliance monitoring for a User. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-48 COMPLIANCE SCHEDULES FOR APPLICABLE PRETREATMENT STANDARDS:

- (A) The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the User to meet the applicable pretreatment standards (e.g., hiring an engineer, completing preliminary plans, completing final plans, executing contract for major components, commencing construction, completing construction, etc.).
- (B) No increment referred to in paragraph (A) of this Section shall exceed nine (9) months.
- (C) Not later than fourteen (14) days following each date in the schedule and the final date for compliance, the User shall submit a progress report to City including, at a minimum, whether or not it complied with the increment of progress to be met on such date and, if not, the date on which it expects to comply with this increment of progress, the reason for delay, and the steps being taken by the User to return the construction to the schedule established. In no event shall more than nine (9) months elapse between such progress reports. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-49: NOTIFICATION OF MATERIAL PRODUCTION CHANGES: Any User operating under a wastewater discharge permit incorporating equivalent mass or concentration limits shall notify City within two (2) business days after the User has a reasonable basis to know that its production level will materially change within the next calendar month. Material changes that require this notice will be identified on individual permits issued. Any User not providing a notice of such anticipated change will be required to comply with the existing limits contained in its wastewater discharge permit. . (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-50: HAZARDOUS WASTE NOTIFICATION:

- (A) Any User that is discharging more than fifteen (15) kilograms of hazardous wastes as defined in 40 CFR 261 (listed or characteristic wastes) in a calendar month or any facility discharging any amount of acutely hazardous wastes as specified in 40 CFR 261.30(d) and 261.33(e) is required to provide a one-time notification in writing to City, the EPA Region 10, Office of Air, Waste and Toxic Chemicals and, to the extent required by law and, the Idaho Department of Health and Welfare Division. Any existing User exempt from this notification, shall comply with the requirements contained herein within thirty (30) days of becoming aware of a discharge of fifteen (15) kilograms or greater of hazardous wastes in a calendar month or the discharge of acutely hazardous wastes to the City sewer system. Such notification shall include:
- (1) The name of the hazardous waste as set forth in 40 CFR Part 261;
 - (2) The EPA Hazardous waste number;
 - (3) The type of discharge (continuous, batch, or other); and
 - (4) If an industrial User discharges more than one hundred (100) kilograms of such waste per calendar per month to the sewer system, the notification shall also contain the following information to the extent it is known or readily available to the Industrial User:
 - (a) An identification of the hazardous constituents contained in the wastes;
 - (b) An estimation of the mass and concentration of such constituents in the wastestreams discharged during that calendar month; and
- (B) An estimation of the mass of constituents in the wastestreams expected to be discharged during the following twelve (12) months.
- (C) These notification requirements do not apply to pollutants already reported under the self-monitoring requirements.
- (D) Whenever the EPA publishes final rules identifying additional hazardous wastes or new characteristics of hazardous waste, a User shall notify City of the discharge of such a substance within ninety (90) days of the effective date of such regulations.
- (E) In the case of any notification made under this paragraph, an industrial User shall certify that it has a program in place to reduce the volume and toxicity of hazardous wastes generated to the degree it has determined to be economically practical. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3003, 04-23-15; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-51: NOTICE OF POTENTIAL PROBLEMS, INCLUDING ACCIDENTAL SPILLS, SLUG LOADINGS: Any User shall notify City immediately of all discharges that could cause problems to the POTW, including any slug loads, as defined in this Chapter. The notification shall also include the concentration and volume of the discharge, corrective action being taken or proposed to be taken, and steps being taken to reduce any adverse impact on the POTW. Any User

who discharges a slug load of pollutants shall be liable for any expense, loss, or damage to the POTW, in addition to the amount of any fines imposed on City under State or Federal law. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16)

8-1-52: **NON-COMPLIANCE REPORTING:** If sampling performed by a User indicates a violation, the User shall notify City within twenty-four (24) hours of becoming aware of the violation. The User shall also repeat the sampling within five (5) days and submit the results of the repeat analysis to City within thirty (30) days after becoming aware of the violation. Where City has performed the sampling and analysis in lieu of the Industrial User, City must perform the repeat sampling and analysis unless it notifies the User of the violation and requires the User to perform the repeat analysis. Resampling is not required if:

- (A) City performs sampling at the Industrial User's location at a frequency of at least once per month; or
- (B) City performs sampling at the Industrial User's location between the time when the initial sampling was conducted and the time when the User receives the results of this sampling. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-53: **NOTIFICATION OF CHANGED DISCHARGE:** All Users shall promptly notify City in advance of any substantial change in the volume or character of pollutants in their discharge, including significant manufacturing process changes, pretreatment modifications, and the listed or characteristic hazardous wastes for which the User has submitted initial notification under 40 CFR 403.12 (p). (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-54: **REPORTS FROM UNPERMITTED USERS:** All Users not required to obtain a wastewater discharge permit shall provide appropriate reports to City as the Director may require (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-55: **RECORDKEEPING :** Users subject to the reporting requirements of this Chapter shall retain, and make available for inspection and copying, all records of information obtained pursuant to any monitoring activities required by this Chapter and any additional records of information obtained pursuant to monitoring activities undertaken by the User independent of such requirements, including documentation associated with Best Management Practices. Records shall include the date, exact place, method, and time of sampling and the name of the person(s) taking the samples; the dates analyses were performed; who performed the analyses; the analytical techniques or methods used; and the results of such analyses. These records shall be kept and made available to the City for a period of at least five (5) years after their creation. This period shall be automatically extended for the duration of any litigation concerning the User or POTW, or where the User has been specifically notified of a longer retention period by the Director. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3297, 2-13-20)

8-1-56: **SAMPLING REQUIREMENTS FOR USERS:**

- (A) Grab samples must be used for pH, cyanide, total phenols, oil and grease, sulfide, and volatile organic compounds. For all other pollutants, twenty-four (24) hour composite samples must be obtained through flow-proportional composite sampling techniques, unless time-proportional composite sampling or grab sampling is authorized by the Director. The samples must be representative of the Discharge and the decision to allow the alternative sampling must be documented in the Industrial User file for that facility or facilities. Using protocols (including appropriate preservation) specified in 40 CFR Part 136 and appropriate EPA guidance, multiple grab samples collected during the twenty-four (24) hour period may be composited prior to the analysis as follows: for cyanide, total phenols, and sulfides the samples may be composited in the laboratory. Composite samples for other parameters unaffected by compositing procedures as documented in approved EPA methodologies may be authorized by the Control Authority, as appropriate.
- (B) For sampling required in support of baseline monitoring and ninety (90) day compliance reports, a minimum of four (4) grab samples must be used for pH, cyanide, total phenols, oil and grease, sulfide and volatile organic compounds for facilities for which historical sampling data do not exist; for facilities for which historical sampling data are available, the Director may authorize a lower minimum. For the reports required by 40 CFR 403.12 (e) and (h), the Director shall require the number of grab samples necessary to assess and assure compliance by Industrial Users with Applicable Pretreatment Standards and Requirements.
- (C) Samples should be taken immediately downstream from pretreatment facilities if such exist or immediately downstream from the regulated or manufacturing process if no pretreatment exists or as determined by City and contained in the User's wastewater discharge permit. For categorical Users, if other wastewaters are mixed with the regulated wastewater prior to pretreatment the User should measure the flows and concentrations necessary to allow use of the combined wastestream formula of 40 CFR 403.6(e) in order to evaluate compliance with the applicable Categorical Pretreatment Standards. For other SIUs, for which the City has adjusted its local limits to factor out dilution flows, the User should measure the flows and concentrations necessary to evaluate compliance with the adjusted pretreatment standards. In cases where the Standard requires compliance with a Best Management Practice or pollution prevention alternative, the User shall submit documentation as required by City or the applicable Standard to determine compliance with the Standard.
- (D) All sample results shall indicate the time, date and place of sampling and methods of analysis, and shall certify that such sampling and analysis is representative of normal work cycles and expected pollutant discharges from the User. If a User samples and analyzes more frequently than what was required in its wastewater discharge permit, using methodologies in 40 CFR Part 136, it must submit all results of sampling and analysis of the discharge as part of its self-monitoring report. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-57: ANALYTICAL REQUIREMENTS: All pollutant analyses, including sampling techniques, shall be performed in accordance with the techniques prescribed in 40 CFR Part 136,

unless otherwise specified in an applicable categorical pretreatment standard. If 40 CFR Part 136 does not contain sampling or analytical techniques for the pollutant in question, sampling and analyses must be performed in accordance with procedures approved by the EPA. (Ord. 2223, 1-9-97; Ord. 3297, 2-13-20)

8-1-58: **MONITORING OF USER'S WASTEWATER:** City will follow the same procedures as outlined in Sections 8-1-56 and 8-1-57 of this Chapter whenever it deems City monitoring is appropriate to ensure compliance with this Chapter. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-59: **INSPECTION AND SAMPLING:** City shall have the right to enter the facilities of any User to ascertain whether the purposes of this Chapter, and any wastewater discharge permit or order issued hereunder, are being met and whether the User is complying with all requirements thereof. Users shall allow the Director ready access to all parts of the premises for the purposes of inspection, sampling, records examination and copying, and the performance of any additional duties.

- (A) Where a User has security measures in force which require proper identification and clearance before entry into its premises, the User shall make necessary arrangements with its security guards so that, upon presentation of suitable identification, the Director will be permitted to enter without delay for the purposes of performing specific responsibilities.
- (B) The Director shall have the right to set up on the User's property, or require installation of, such devices as are necessary to conduct sampling or metering of the User's operations.
- (C) Any temporary or permanent obstruction to safe and easy access to the facility to be inspected or sampled shall be promptly removed by the User at the written or verbal request of the Director and shall not be replaced. The costs of clearing such access shall be borne by the User.
- (D) Unreasonable delays in allowing the Director access to the User's premises shall be a violation of this Chapter. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-60: **MONITORING FACILITIES:**

- (A) Each User shall provide and operate at its own expense a monitoring facility to allow inspection, sampling, and flow measurements of each sewer discharge to City. Each monitoring facility shall be situated on the User's premises, except where such a location would be impractical or cause undue hardship on the User and City approves such alternate location in writing.
- (B) Ample room shall be provided in or near such sampling facility to allow accurate sampling and preparation of samples for analysis. The facility, including the sampling and measuring equipment, shall be maintained at all times in a safe and proper operating condition at the expense of the User.

- (C) The Director may require the User to install monitoring equipment as necessary. All monitoring facilities shall be constructed and maintained in accordance with all applicable local construction standards and specifications. All devices used to measure wastewater flow and quality shall be calibrated to ensure their accuracy. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-61: SEARCH WARRANTS: If the Director has been refused access to a building, structure or property, or any part thereof, and is able to demonstrate probable cause to believe that there may be a violation of this Chapter, or that there is a need to inspect as part of a routine inspection program of the City designed to verify compliance with this Chapter or any wastewater discharge permit or order issued hereunder, or to protect the overall public health, safety and welfare of the community, then the Director may seek issuance of a search or seizure warrant from a court of competent jurisdiction. Such warrant shall be served in the manner allowed by law. (Ord. 2223, 1-9-97; Ord. 3297, 2-13-20)

8-1-62: CONFIDENTIAL INFORMATION: Information and data on a User obtained from reports, surveys, wastewater discharge permit applications, wastewater discharge permits, and monitoring programs, and from City inspection and sampling activities, shall be available to the public without restriction, unless the User specifically requests, and is able to demonstrate to the satisfaction of City, that the release of such information would divulge information, processes, or methods of production entitled to protection as trade secrets under applicable State law. When requested and demonstrated by the User furnishing a report that such information should be held confidential, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public, but shall be made available immediately upon request to governmental agencies for uses related to the NPDES program or pretreatment program, and in enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics and other "effluent data" as defined by 40 CFR 2.302 will not be recognized as confidential information and will be available to the public without restriction. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-63: PUBLICATION OF USERS IN SIGNIFICANT NON-COMPLIANCE: City shall publish annually, in the Official Newspaper, a list of the Users which, during the previous twelve (12) months, were in significant non-compliance with applicable pretreatment standards and requirements. For the purposes of this Chapter, a Significant Industrial User (or any Industrial User which violates Subsections (C), (D), or (H) of this Section) is in significant noncompliance if its violation meets one (1) or more of the following criteria;

- (A) Chronic violations of wastewater discharge limits, defined here as those in which sixty-six percent (66%) or more of wastewater measurements taken for the same pollutant parameter during a six (6) month period exceed (by any magnitude) a numeric Pretreatment Standard or Requirement, including instantaneous limits, as defined by 40 CFR 403.3(1);
- (B) Technical Review Criteria ("TRC") violations, defined here as those in which thirty-three percent (33%) or more of all of the measurements taken for each pollutant parameter during a six (6) month period equal or exceed the product of the numeric Pretreatment Standard

or Requirement, including instantaneous limits, as defined by 40 CFR 403.3(l) multiplied by the applicable TRC (TRC = 1.4 for BOD, TSS, fats, oil, and grease, and 1.2 for all other pollutants except pH);

- (C) Any other violations of a Pretreatment Standard or Requirement as defined by 40 CFR 403.3(l) (daily maximum, longer-term average, instantaneous limit, or narrative Standard) that the POTW determines has caused, alone or in combination with other discharges, interference or pass through, including endangering the health of POTW personnel or the general public;
- (D) Any discharge of pollutant that has caused imminent endangerment to human health, welfare or to the environment, or has resulted in POTW's exercise of its emergency authority under Section 8-1-70 of this Chapter to halt or prevent such a discharge;
- (E) Failure to meet, within ninety (90) days of the scheduled date, a compliance schedule milestone contained in a local control mechanism or enforcement order for starting construction, completing construction, or attaining final compliance;
- (F) Failure to provide within forty-five (45) days after the due date, required reports, such as baseline monitoring reports, ninety (90) day compliance reports, periodic self-monitoring reports and reports on compliance with compliance schedules;
- (G) Failure to accurately report noncompliance; or
- (H) Any other violation or group of violations, which may include a violation of Best Management Practices, which the POTW determines will adversely affect the operation or implementation of the local Pretreatment program. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-64: NOTIFICATION OF VIOLATION: When the Director finds that a User has violated or continues to violate any provision of this Chapter, a wastewater discharge permit or order issued hereunder, or any other pretreatment standard or requirement, the Director may serve upon that User a written Notice of Violation. Such Notice shall be conclusively deemed served upon its deposit in the United States mail, postage prepaid, certified mail, return receipt requested, addressed to the address specified in the User's application, or such other address which has been delivered to City in writing. Within thirty (30) days after service of this notice, User shall similarly serve upon the Director an explanation of the violation and a plan for the satisfactory correction and prevention thereof, to include specific required actions. Submission of this plan in no way relieves the User of liability for any violation occurring before or after receipt of the Notice of Violation. Nothing in this Section shall limit the authority of City to take any action, including emergency actions or any other enforcement action, without first issuing a Notice of Violation. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-65: CONSENT ORDERS: The Director may enter into consent orders, assurances of voluntary compliance, or other similar documents establishing an agreement with any User responsible for non-compliance. Such documents will include specific action to be taken by the

User to correct the non-compliance within a time period specified by the document. Such documents shall have the same force and effect as the administrative orders issued pursuant to Sections 8-1-67 and 8-1-68 of this Chapter and shall be judicially enforceable. Use of a Consent Order shall not be a bar against, or prerequisite for, taking any other action against the User. (Ord. 2223, 1-9-97; Ord. 3297, 2-13-20)

8-1-66: **SHOW CAUSE HEARING:** The Director may order a User which has violated or continues to violate, any provision of this Chapter, a wastewater discharge permit or order issued hereunder, or any other pretreatment standard or requirement, to appear before the Director and show cause why the proposed enforcement action should not be taken. Notice shall be served on the User specifying the time and place for the meeting, the proposed enforcement action, the reasons for such action, and a request that the User show cause why the proposed enforcement action should not be taken. The notice of the meeting shall be served personally or by registered or certified mail, return receipt requested, at least fifteen (15) days prior to the hearing. Such notice may be served on any Authorized Representative of the User. A show cause hearing shall not be a bar against, or prerequisite for, taking any other action against the User. (Ord. 2223, 1-9-97; Ord. 3297, 2-13-20)

8-1-67: **COMPLIANCE ORDERS:** When the Director finds that a User has violated or continues to violate any provision of this Chapter, a wastewater discharge permit or order issued hereunder, or any other pretreatment standard or requirement, the Director may issue an order to the User responsible for the discharge directing that the User come into compliance within a time specified in the order. If the User does not come into compliance within the time specified in the order, sewer service may be discontinued unless adequate treatment facilities, devices, or other related appurtenances are installed and properly operated. Compliance orders may also contain other requirements to address the non-compliance, including additional self-monitoring and management practices designed to minimize the amount of pollutants discharged to the sewer. Issuance of a compliance order shall not be a bar against, or a prerequisite for, taking any other action against the User. (Ord. 2223, 1-9-97; Ord. 3297, 2-13-20)

8-1-68: **CEASE AND DESIST ORDERS:** When the Director finds that a User has violated, or continues to violate, any provision of this Chapter, a wastewater discharge permit or order issued hereunder, or any other pretreatment standard or requirement, or that the User's past violations are likely to recur, the Director may issue an order to the User directing it to cease and desist all such violations and directing the User to:

- (A) Immediately comply with all requirements; and
- (B) Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations and/or terminating the discharge.

Issuance of a cease and desist order shall not be a bar against, or a prerequisite for, taking any other action against the User. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3297, 2-13-20)

8-1-69: **ADMINISTRATIVE FINES; ATTORNEYS FEES AND COSTS:**

- (A) When the Director finds that a User has violated or continues to violate any provision of this Chapter, a wastewater discharge permit or order issued hereunder, or any other pretreatment standard or requirement, the Director may fine such User in an amount set from time to time by Resolution of the Council. Such fines shall be assessed on a per violation, per day basis. In the case of monthly or other long term average discharge limits, fines shall be assessed for each day during the period of violation.
- (B) Users desiring to dispute such fines must file a written request for the Director to reconsider the fine along with full payment of the fine amount within fifteen (15) days of being notified of the fine. Upon receipt of such request, the Director shall convene a hearing on the matter within fifteen (15) days thereafter. In the event the User's appeal is successful, the payment, together with any interest accruing thereto, shall be returned to the User. City may add the costs of preparing administrative enforcement actions, such as notices and orders, to the fine.
- (C) Issuance of an administrative fine shall not be a bar against, or a prerequisite for, taking any other action against the User.
- (D) To the fullest extent permitted by law, City shall be entitled to recover its reasonable attorney fees, court costs, and other expenses associated with enforcement of this Chapter, including without limitation, sampling and monitoring expenses and all other damages sustained by City as a direct result of a User's violation of the provisions of this Chapter. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 2964, 8-14-14; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-70: EMERGENCY SUSPENSIONS: The Director may immediately suspend a User's discharge, after informal notice to the User, whenever such suspension is necessary to stop an actual or threatened discharge which reasonably appears to present or which causes an imminent or substantial endangerment to the health or welfare of persons. The Director may also immediately suspend a User's discharge, after notice and opportunity to respond, that threatens to interfere with the operation of the POTW, or which presents or may present an endangerment to the environment.

- (A) Any User notified of a suspension of its discharge shall immediately stop or eliminate its discharge into the POTW. In the event of a User's failure to immediately comply voluntarily with the suspension order, the Director shall take steps as deemed necessary, including immediate severance of the sewer connection, to prevent or minimize damage to the POTW, its receiving stream, or endangerment to any individuals. The Director shall allow the User to recommence its discharge when the User has demonstrated to the satisfaction of City that the period of endangerment has passed, unless termination proceedings under Section 8-1-71 of this Chapter are initiated against the User.
- (B) A User that is responsible, in whole or in part, for any discharge presenting imminent endangerment shall submit to the Director a detailed written statement, describing the causes of the harmful contribution and the measures taken to prevent any future occurrence,

prior to the date of any show cause or termination hearing under Sections 8-1-66 and 8-1-71 of this Chapter.

Nothing in the Section shall be interpreted as requiring a hearing prior to an emergency suspension under this Section. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-71: **TERMINATION OF DISCHARGE (NON-EMERGENCY):** In addition to the provisions in Section 8-1-44 of this Chapter, any User that violates any of the following conditions is subject to discharge termination:

- (A) Violation of wastewater discharge permit conditions;
- (B) Failure to accurately report the wastewater constituents and characteristics of its discharge;
- (C) Failure to report significant changes in operations or wastewater volume, constituents and characteristics prior to discharge;
- (D) Refusal of reasonable access to the User's premises for the purpose of inspection, monitoring or sampling; or
- (E) Violation of the pretreatment standards in Sections 8-1-9 through 8-1-20 this Chapter.

Such User will be notified of the proposed termination of its discharge and be offered an opportunity to show cause under Section 8-1-66 of this Chapter why the proposed action should not be taken. Exercise of this option by City shall not be a bar to, or a prerequisite for, taking any other action against the User. (Ord. 3297, 2-13-20)

8-1-72: **PERFORMANCE BONDS:** The Director may decline to issue or reissue a wastewater discharge permit to any User which has failed to comply with any provision of this Chapter, a previous wastewater discharge permit or order issued hereunder, or any other pretreatment standard or requirement unless such User first files a satisfactory bond, payable to City, in a sum not to exceed a value determined by the Director to be necessary to achieve consistent compliance. (Ord. 2223, 1-9-97; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-73: **LIABILITY INSURANCE:** The Director may decline to issue or reissue a wastewater discharge permit to any User which has failed to comply with any provision of this Chapter, a previous wastewater discharge permit or order issued hereunder, of any other pretreatment standard or requirement, unless the User first submits proof that it has adequate general liability insurance or has provided other similar financial assurances sufficient to restore or repair damage to the POTW caused by its discharge. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3297, 2-13-20)

8-1-74: **TERMINATION OF UTILITY SERVICES:** Whenever a User has violated or continues to violate any provision of this Chapter, a wastewater discharge permit or order issued

hereunder, or any other pretreatment standard or requirement, electric service, water service, or other public utility services to the User may be terminated in accordance with the procedures set forth in Section 8-5-17 of this Chapter. Service may be restored only upon proof that the User has corrected its violation of the provisions of this Chapter and has provided satisfactory assurances that such violation will not recur. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3297, 2-13-20)

8-1-75: PUBLIC NUISANCES: A violation of any provision of this Chapter, a wastewater discharge permit, or order issued hereunder, or any other pretreatment standard or requirement, is hereby declared a public nuisance and shall be corrected or abated as directed by the Director. Any person(s) creating a public nuisance shall be subject to the provisions of this Code or State law governing such nuisances, including reimbursing City for any costs incurred in removing, abating, or remedying said nuisance. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-76: INFORMANT REWARDS: City may pay a reward in an amount set from time to time by Resolution of Council for information leading to the discovery of non-compliance by a User. In the event that the information provided results in an administrative fine or civil penalty levied against the User, City may, upon similar Resolution, authorize the disbursement of up to ten percent (10%) of the collected fine or penalty to the informant, provided however, a single reward payment may not exceed in an amount set from time to time by Resolution of the Council. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 2964, 8-14-14; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-77: CONTRACTOR LISTING: Users which are not compliance with applicable pretreatment standards and requirements are not eligible to receive a contractual award for the sale of goods or services to City. Existing contracts for the executory sale of goods or services to City held by a User found to be in significant non-compliance with pretreatment standards and requirements may be terminated at the discretion of City. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-78: AFFIRMATIVE DEFENSES TO DISCHARGE VIOLATIONS: The following affirmative defenses may be established by a User against whom any enforcement action or remedy is sought.

(A) Upset:

- (1) For the purposes of this Section, “upset” means an exceptional incident in which there is unintentional and temporary non-compliance with applicable pretreatment standards because of factors beyond the reasonable control of the User. An upset does not include non-compliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.

- (2) An upset shall constitute an affirmative defense to an action brought for non-compliance with applicable pretreatment standards if the requirements of paragraph C of this Section are met.
 - (3) A User who wishes to establish the affirmative defense of upset shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence that:
 - (a) An upset occurred and the User can identify the cause(s) of the upset;
 - (b) The facility was at the time being operated in a prudent and workman-like manner and in compliance with applicable operation and maintenance procedures; and
 - (c) The User has submitted the following information to the POTW and treatment plant operator within twenty-four (24) hours of becoming aware of the upset [if this information is provided orally, a written submission must be provided within five (5) days]:
 - (i) A description of the indirect discharge and cause of non-compliance;
 - (ii) The period of non-compliance, including exact dates and times or, if not corrected, the anticipated time the non-compliance is expected to continue; and
 - (iii) Steps being taken and/or planned to reduce, eliminate, and prevent recurrence of the non-compliance.
 - (4) In any enforcement proceeding, the User seeking to establish the occurrence of an upset shall have the burden of proof.
 - (5) Users will have the opportunity for a judicial determination on any claim of upset only in an enforcement action brought for non-compliance with applicable pretreatment standards.
 - (6) Users shall control production of all discharges to the extent necessary to maintain compliance with applicable pretreatment standards upon reduction, loss, or failure of their treatment facility until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, lost, or fails.
- (B) Prohibited Discharge Standards. A User shall have an affirmative defense to an enforcement action brought against it for non-compliance with the prohibitions in Section 8-1-9 of this Chapter if it can prove that it did not know, or have reason to know, that its discharge, alone or in conjunction with discharges from other sources, would cause pass through or interference and that either: (a) a local limit exists for each pollutant discharged and the User was in compliance with each limit directly prior to, and during, the pass

through or interference; or (b) no local limit exists, but the discharge did not change substantially in nature or constituents from the User's prior discharge when City was regularly in compliance with its NPDES permit, and in the case of interference, was in compliance with applicable sludge use or disposal requirements.

(C) Bypass.

- (1) For the purposes of this Section:
 - (a) "Bypass" means the intentional diversion of wastestreams from any portion of a User's treatment facility.
 - (b) "Severe property damage" means substantial physical damage to property, damage to the treatment facilities which causes them to become inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production.
- (2) A User may allow any bypass to occur which does not cause applicable pretreatment standards or requirements to be violated, but only if it also is for essential maintenance to assure efficient operation. These bypasses are not subject to the provision of paragraphs (3) and (4) of this Section.
- (3)
 - (a) If a User knows in advance of the need for a bypass, it shall submit prior notice to the POTW, at least ten (10) days before the date of the bypass, if possible.
 - (b) A User shall submit oral notice to City of an unanticipated bypass that exceeds applicable pretreatment standards within twenty-four (24) hours from the time it becomes aware of the bypass. A written submission shall also be provided within five (5) days of the time the User becomes aware of the bypass. The written submission shall contain a description of the bypass and its cause; the duration of the bypass, including exact dates and times, and, if the bypass has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate and prevent recurrence of the bypass. The POTW may waive the written report on a case-by-case basis if the oral report has been received within twenty-four (24) hours.
- (4)
 - (a) Bypass is prohibited, and the POTW may take an enforcement action against a User for a bypass, unless:
 - (i) Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;
 - (ii) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This

condition is not satisfied if adequate back-up equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

(iii) The User submitted notices as required under paragraph three (3) of this Section

(b) The POTW may approve an anticipated bypass, after considering its adverse effects, if the POTW determines that it will meet the three (3) conditions listed in paragraph (4)(a) of this Section. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-79: **SEWER USER SERVICE CHARGE:** A monthly service charge for sewer service shall be charged to all Users. All charges to Users, shall be calculated in a manner that ensures each User will pay a fair share of the costs of operation, maintenance, and capital equipment replacement based upon proportional usage of the sewer system and POTW. The rates established shall generate sufficient revenue to defray the costs of operating and prudently managing the sewerage system, including but not limited to: (a) capital costs; (b) operation and maintenance costs; (c) replacement costs and reserves, and (d) debt service on bonded indebtedness.

City shall establish monthly rates for sewer service supplied by City in an amount set from time to time by Resolution of the Council for the following:

(A) Monthly Non-Metered Residential Wastewater Rates (Inside City):

- (1) Single-family dwellings and mobile homes (excluding separate apartment units within such dwelling) – Per dwelling or unit;
- (2) Duplex/Triplex – Per dwelling or unit;
- (3) Apartment unit (tenant pays bill) – Per unit.

(B) Monthly Non-Metered Commercial Wastewater Rates (Inside City):

- (1) Category 1 (Commercial Apartment Building where single bill for all tenants is paid by landlord or manager) – Per unit;
- (2) Category 2 (Bar, Church, Gym, Office Space, Retail, Salon, Shop, and Warehouse) – Per business;
- (3) Category 3 (Big Box Retail, Car Sales, Convenience Store, Day Care, Fast Food, Medical Office) – Per business;
- (4) Category 4 (Hall, Restaurant) – Per business;

- (5) Category 5 (Hotel or Rest Home with twenty (20) rooms or less) – Per business;
 - (6) Category 6 (Hotel or Rest Home with more than twenty (20) rooms) – Per business.
- (C) Monthly Non-metered School Wastewater Rate (Inside City): Elementary School, Junior High School, High School, College and University – Per fifty (50) students or fraction thereof.
 - (D) All other non-classified businesses shall be placed into a monthly non-metered commercial wastewater category by the Water Division Superintendent based on anticipated interior water consumption.
 - (E) Monthly Metered Wastewater Rates (Inside City). The wastewater for customers receiving metered water service shall be a monthly base metered wastewater plus a monthly volumetric rate per each one thousand (1,000) gallons of water used; in an amount set from time to time by Resolution of the Council.
 - (1) Installations where a water meter is found to register both landscape irrigation as well as interior uses, an average monthly metered wastewater shall be calculated each September for the following year. The average monthly metered wastewater shall be determined by averaging the monthly metered water volumes for the four (4) months of December through March immediately prior, preventing landscape irrigation from inflating the monthly sewer bill. New installations without sufficient metered data shall be charged a non-metered commercial wastewater as defined above until such time that sufficient metered data is available.
 - (2) Installations where a water meter registers landscape irrigation only shall not be billed a monthly metered wastewater. (Ord. 2357, 12-22-99; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-80: COMPUTATION OF INDUSTRIAL WASTE SERVICE CHARGE: Industrial waste service charges shall be based upon flow, biochemical oxygen demand (BOD), suspended solids (SS) and other reasonable factors that affect the cost of providing treatment services. (Ord. 2223, 1-9-97; Ord. 3297, 2-13-20)

8-1-81: TRANSITION RATES FOR INDUSTRIAL USERS: Transition rates for industrial Users may be established by annual resolution of the Council, based upon the cost-of-service rate methodology set forth in the 1998 Rate Study prepared by CH2M Hill. Such rates shall be designed to transition over a period of not to exceed four (4) years, beginning in the year 2000. Transition to cost-of-service rates may occur at a different pace for each industrial User, depending upon the hardship associated with necessary adjustments towards cost-of-service based rates. (Ord. 2357, 12-22-99; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-82: **GREASE INTERCEPTOR:** Whenever a building is used as a food service establishment or commercial kitchen, the owner or occupant shall provide a grease interceptor or a grease trap through which all waste containing fats, oils, or grease shall be drained. Such interceptor or trap shall be designed and sized as outlined in Chapter 10 Section 1014 of the currently adopted edition of the Idaho State Plumbing Code, and shall only allow wastewater, which complies with this Chapter to be drained into the sanitary sewer system.

EXCEPTION: The requirements of Chapter 10 Section 1014 shall not apply when, in the judgment of the Director, or their nominee, the kitchen discharge does not contain or exceed the fats, oils, and grease limitations as outlined in the Local Limits, Section 8-1-12 of this Chapter.

(Ord. 2223, 1-9-97; Ord. 2609, 7-28-05; Ord. 2684, 12-14-06; Ord. 3094, 9-22-16; Ord. 3297, 2-13-20)

8-1-83: **INTERCEPTORS REQUIRED TO REMOVE HARMFUL INGREDIENTS:** Grease, oil and sand interceptors or other adequate removal facilities shall be installed on the premises necessary to remove grease in excessive amounts, high concentration of blood, fruit, vegetable or grain liquors, milk wastes, or any flammable wastes, sand and other harmful ingredients. All interceptors shall be of a type and capacity approved by the Director and shall be so located as to be readily and easily accessible for cleaning and inspection. All interceptors shall be properly and regularly maintained by the owner or occupant. (Ord. 2223, 1-9-97; Ord. 2684, 12-14-06)

8-1-84: **SEPTIC TANK WASTES:**

- (A) No person or entity shall haul septic tank waste for commercial purposes or discharge septic tank waste from any portable tank or storage container into the POTW unless such person or entity has a permit issued by the Director. Such permit shall be issued for a period of one (1) year and may be issued only upon submission of an application to the Director in such form as may be determined appropriate by the Director. The license fee for such permit shall be in an amount set from time to time by Resolution of the Council. Such permit shall be specific to the permittee and may not be sold or transferred to any other person or entity. The applicant shall, as part of the application, submit a list of all vehicles to be used for the purpose of hauling, transporting or discharging septic tank waste into the POTW and the permittee shall not use any vehicle or storage container not contained or included within such list.
- (B) Septic tank waste may be introduced into the POTW only at a designated receiving structure within the treatment plant area, and at such times as are established by the Director. Such wastes shall consist of domestic sewage only, must meet or exceed the local limits and shall not otherwise violate any provisions of this Chapter. In no event shall any permittee haul, transport or otherwise discharge into the POTW any hazardous waste as defined by RCRA.
- (C) Septic tank waste haulers must provide a waste-tracking form for every load. This form shall include, at a minimum, the name and address of the waste hauler, permit number, truck identification, sources of waste, and volume and characteristics of waste.

- (D) Fees for dumping hauled wastes will be established as part of the User fee system as authorized in Section 8-1-86 of this Chapter. (Ord. 2684, 12-14-06; Ord. 2964, 8-14-14; Ord. 3297, 2-13-20)

8-1-85: CLASSIFICATION OF USERS: For billing purposes, sewer users shall be classified and billed as follows:

- (A) Residential
- (B) Commercial
- (C) Industrial

(Ord. 2357, 12-22-99; Ord. 3297, 2-13-20)

8-1-86: BILLING, COLLECTION, AND TERMINATION OF UTILITY SERVICE: Billing, collection, and termination for utility service shall be processed pursuant to the City billing, collection, and termination policy established by Council Resolution. (Ord. 2223, 1-9-97; Ord. 3039, 11-24-2015; Ord. 3297, 2-13-20)

8-1-87: RECOVERY OF COSTS: City may adopt reasonable fees for reimbursement of costs of setting up and operating the City's pretreatment program which may include:

8-4-14: WATER SYSTEM FEES:

(A) Purpose. The purpose of this Section is to establish an equitable system of charging new customers for the impact or burden created whenever they enlarge an existing water service or connect a new water service to the existing wells, storage tanks, pumps, outbuildings, and appurtenances of City water system, all of which were funded from revenues of City water system or paid with revenues derived from ad valorem taxes. City recognizes the inherent inequity of requiring existing customers or taxpayers to bear the entire cost of acquiring or building new facilities, or of utilizing excess capacity with existing facilities, in order to meet the needs of such new development. The Council hereby finds and recognizes the relationship between the nature of the uses of property and the impact thereof upon the City water system. The Council also finds that customers who connect to a water main located adjacent to their property receive a direct benefit from such water mains, which benefit is directly proportional to the frontage of the water main along their property. The Council further finds that it is fair and equitable to charge a water main installation charge for customers who connect to such mains in order to fund a portion of the cost incurred by City in installing such mains.

(B) Water Service Connection Fees. A water service connection fee shall be collected from any person requesting connection to the water system for any new building, structure, irrigated surface, or water feature, or for any existing building or use for which a change

in occupancy or use, as defined under the current Building Code adopted by the City, is made and for which a new or larger water service line is installed. Notwithstanding the foregoing, no water service connection fee shall be charged for connection of water service solely for fire protection services. Such water service connection fee shall be in an amount set from time to time by Resolution of the Council.

- (C) **Water Main Connection Charge.** Before connecting to any water main constructed in whole or in part at City expense, all persons desiring such connection shall pay a water main connection charge in an amount set from time to time by Resolution of the Council per front foot of property owned by such person and fronting upon a street, public right-of-way, or public utility easement within which a water main is located. Such charge shall be in addition to the water service connection fees set forth above. Despite the foregoing, if any person requests annexation to the City and as part of such annexation also requests connection to such water main, then the fee shall be due in full at the time such property is annexed to City. If any such property is located upon a corner or is bounded by two (2) or more streets in which a water main is located, the calculation for the fee shall be based upon the frontage of the longest street in which a water main is located. Location of a canal between such property and street, public utility easement, or public right-of-way shall not relieve property owner from paying a water main connection charge. All water mains within City shall be deemed to have been constructed in whole or in part at City expense, unless the applicant presents written evidence conclusively demonstrating such main was constructed entirely from private monies or was constructed entirely with funds from a state or federal grant. If any person constructs a water main entirely at their expense, the City may, by written agreement, pay over to such person all water main connection charges collected by City from any other person who subsequently connects to such water main (Ord. 2753, 5-22-08; Ord. 2964, 8-14-14; Ord. 3095, 9-22-16)

8-4-15: **INSTALLATION AND MAINTENANCE:** All service lines and connections from the water main to and including the curb stop and meter pit shall be installed by a private contractor hired by the customer in accordance with City standards and specifications, including but not limited to the Standard Drawings and Specifications, and shall be inspected, maintained, owned, and exclusively controlled by the Water Division. (Ord. 2267, 3-12-98; Ord. 2964, 8-14-14; Ord. 3095, 9-22-16; Ord. 3186, 5-24-18; Ord. 3335, 24-11-20)

8-4-16: **ARRANGEMENT OF SERVICE PIPES:** The service lines must be so arranged that the water supply to each building, place of business, dwelling unit, or tract of land (whether created lawfully or unlawfully) shall be controlled by a separate curb stop placed at or near the property line of the premises served, unless permission for a different arrangement is first authorized in writing by the Water Division. (Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-17: **BRANCH SERVICE:** No customer line shall serve more than one (1) customer. Where an existing customer line provides service to several customers, City may terminate water service until a separate customer line (and, if necessary, service line) is provided at the owner's expense. If City does not terminate service to such existing services, the established rate shall be charged for each customer receiving service from the existing line.

(Ord. 3003, 04-23-15; Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-18: **PERMIT REQUIRED:** No person shall dig into the streets or under the sidewalk for the purpose of laying, removing or repairing any water line without first obtaining a permit issued in accordance with Chapter 7 of this title. (Ord. 3003, 04-23-15; Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-19: **CUSTOMER LINE MAINTENANCE:** All water users shall at their own expense keep their customer lines, connections, and other apparatus in good repair and in a condition that avoids waste of water. Customer water lines that become frozen are the responsibility of the customer, provided the City may thaw the same and charge the customer for the fair and reasonable costs therefor. (Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-20: **PERMIT TO DO PLUMBING:** No plumber or other person shall make any connections to a City main or make alterations in any conduit, pipe, or other fixture connecting thereto, or connect pipes where they have been disconnected, or turn water off or on at the curb stop supplying any premises without first obtaining a plumbing permit from the City. If such work requires excavation within a public right-of-way, such person shall also obtain a permit pursuant to this Code. (Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-21: **SERVICE CALL CHARGE:** The Water Division Superintendent may assess and collect a service charge, in an amount not to exceed the actual cost to City, for service calls which are requested on weekends or legal holidays or during a time other than normal working hours and which are only for the convenience and benefit of the customer, or which are necessitated because of plumbing which does not meet the requirements of the current Plumbing Code adopted by the City. (Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-22: **TAMPERING UNLAWFUL:** It shall be unlawful to damage, adjust, or tamper with any portion of the City Water System or appurtenances, whether located upon public or private property, without having first obtained the express permission of City. If any person damages the water system or in any way causes City expenses as a result of such unlawful acts, City may assess and collect the same from the person committing the same, or from the parent or guardian of any minor who commits such acts. Such amounts may be included upon the customer's regular monthly billing statement for water service, and upon the customer's failure or refusal to pay the same, water service may be terminated in accordance with the procedures set forth in this Chapter. (Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-23: **AUTHORITY TO PLACE METER:** The Water Division Superintendent may, in their sole discretion, place a meter on any service line and change the method of billing from a flat rate to a metered rate.
. (Ord. 3003, 04-23-15; Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-24: **OWNERSHIP OF METERS:** All water meters used by City for the billing of water consumption shall remain the property of City and may be removed or replaced by the Water Division at any time. (Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-25: MAINTENANCE OF METERS: The Water Division shall maintain and repair all meters used by City for the billing of water consumption. Where replacement, repair, or adjustment of any meter is rendered necessary by the act, neglect or carelessness of the owner or occupant of any premises, any expense incurred by the Water Division thereby shall be charged against and collected from the customer, and water service may be discontinued until the meter is repaired, replaced, or adjusted. (Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-26: METERS; LOCATION AND ACCESS: Meters shall be located near the customer's property line or within the structure served. The customer shall keep the area adjacent to the meter free from trees, shrubbery, or other obstructions and shall allow the City access to the meter during normal working hours of any day of the week, except weekends and legal holidays. (Ord. 3003, 04-23-15; Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

8-4-28: BILLING, COLLECTION, AND TERMINATION OF UTILITY SERVICE: Billing, collection, and termination for utility service shall be processed pursuant to City billing, collection, and termination policy established by Council Resolution. (Ord. 3095, 9-22-16; Ord. 3335, 24-11-20)

The Water Division Superintendent or their authorized agent shall make an inspection of any building, improvement, or structure of any nature receiving water from the City water supply if there is cause to believe that a cross-connection exists or that a backflow prevention device or assembly should be installed pursuant to this Chapter. Whenever a cross-connection or other source of contamination to the water supply is found, or it is determined that a backflow prevention device or assembly is necessary, the City shall cease delivery of water to such premises and the water supply shall not be resumed until the cross-connection or source of contamination is eliminated or an appropriate backflow prevention device or assembly has been installed in accordance with this Chapter.

8-5-2: EXCLUSIVE RIGHT TO SELL ELECTRICAL ENERGY; CUSTOMER SERVICE POLICIES: IFP shall have the exclusive right to sell and deliver electrical energy for residential, commercial, and industrial lighting, power, heating, and cooling uses located in whole or in part within the City, except as otherwise expressly permitted by law. No other person or entity may sell, re-sell, or distribute electrical energy to any customer whose point of delivery is located within or outside the City, or re-sell energy generated or distributed by the City, unless such delivery is expressly authorized by this Chapter. IFP may from time to time promulgate written rules and regulations and/or customer service policies regarding its delivery of electrical services, provided such regulations are consistent with the provisions of this Chapter. (Ord. 2841, 6-24-10; Ord. 3003, 04-23-15; Ord. 3272, 9-26-19)

8-5-3: OWNERSHIP OF SYSTEM: All lines, equipment, pole and facilities on the supply side of the point of delivery are owned and controlled by the City, except as expressly provided in this Code. 8-5-4: APPLICABILITY TO ELECTRIC SERVICE CUSTOMERS: This Chapter shall apply to the City and to every customer to whom electric energy or service is or will be supplied.

8-5-5: APPLICATION FOR ELECTRIC SERVICES: Electric service shall not be delivered to any customer until the customer or the customer's authorized agent shall personally appear at the City utility billing office and make written application for delivery of electric services or until the customer applies pursuant to another approved City process (such as a secured online application process). The City may require appropriate identification of any customer or agent making application for electric service. Any customer who willfully gives materially false information in the application or who shall falsely represent an identity shall be guilty of a misdemeanor, and electric service to such customer may be terminated all in accordance with this Chapter. (Ord. 3040, 11-24-15; Ord. 3222, 10-25-18; Ord. 3272, 9-26-19)

8-5-6: RATES AND SCHEDULES: Electric service supplied by the City shall be billed in accordance with the schedule of rates set forth below. The schedule of rates is designed to provide monthly rates for service supplied to the customer. (Ord. 3222, 10-25-18)

8-5-7: DELIVERY OF SERVICE: Service shall be delivered only to premises or facilities which are in conformity with the provisions of this Chapter, the Uniform Building and/or Fire Codes, the Zoning Ordinance and all other ordinances of the City. Service will be supplied under a given rate schedule only to such points of delivery as are adjacent to the facilities of the City, and which are adequate and suitable as to capacity and voltage, for service desired and under the rate schedule applicable thereto. The City shall not be obligated to construct extensions or install additional service facilities except as required in this Chapter. (Ord. 3222, 10-25-18)

8-5-8: VOLUNTARY TERMINATION OF SERVICES: In the event that any customer desires to discontinue receiving service from the City, he or she shall give advance notice in writing to the City of such desire to discontinue receiving electric services. Customers will be responsible

for all electric service supplied to the customer's premises until the date set forth in the customer's notice and for any electricity actually consumed by such customer after the termination date set forth in the customer's notice of termination. In the event any customer fails to give written notice in the manner set forth above, the customer shall be responsible for any and all bills or charges incurred by any person until such notice is given, or until another customer shall make application to receive electric service at the same point of delivery, regardless of whether or not the customer actually consumed electrical energy or utilized electrical service for his or her own purposes. (Ord. 3040, 11-24-15; Ord. 3222, 10-25-18)

8-5-9: LIMITATIONS OF USE: No customer shall sell, re-sell, or offer to sell or re-sell such electric energy or permit others to use electric energy supplied to the customer's point of delivery, or install any master meter or sub-meter for such energy, unless such sale, use, or installation is authorized in writing by IFP. A customer shall not extend or connect their wiring or installation, or extend their use of service to other buildings or places of use in order to furnish service to more than one building or place of use through one meter or point of delivery unless such buildings, property or place of use is owned or operated by the customer and all electric service is used by the customer in the conduct of the same establishment and business. Notwithstanding the foregoing, Idaho Falls Power may promulgate rules and regulations allowing the master metering, sub-metering, or re-metering of electrical energy for purposes of re-sale for multi-family residential buildings, shopping centers or other commercial uses where (1) such multi-family use existed prior to July 1, 2010, or (2) the HVAC or water heating systems are centrally located or operated and cannot be individually controlled by the tenant or occupant. (Ord. 2841, 6-24-10; Ord. 3003, 04-23-15; Ord. 3273, 9-26-19)

8-5-10: ACCESS AND RIGHTS OF WAY: Electric service shall be provided only where the customer, without cost to the City, provides the City access and a right of way for the City's lines and apparatus serving the customer, over, across, and upon the property owned or controlled by the customer. The customer shall permit City access to the property and shall provide access to the City's lines and apparatus, including ingress and egress, at all reasonable hours and at any time during an emergency or a City construction project. Access and right of way provided by the customer or property owner pursuant to this subsection shall not require specific prior notification from the City to the customer or property owner of need for ingress or egress. By acceptance of or application for electric services, the customer shall be deemed to waive any claim for damages by the City in conducting City's customary and routine repair, maintenance, construction, and other operations within such right of way. Failure to provide access and right of way pursuant to this subsection may result in the disconnection of City electric and/or dark or lit fiber optic service to the customer until access is accomplished by the City. City lines and apparatus includes City electrical and fiber equipment, power poles, transformers, underground conductors, wires, meters, pedestals, communications boxes, fiber optic splice cables, optical network terminations (ONTs). Access to City lines and apparatus shall comply with the Service Policy and not be impeded or prevented by the presence or construction of any permanent or semi-permanent barriers or structures such as a fence, shed, enclosure, tree, shrub, planting, rock, monument, or the like. (Ord. 3273, 9-26-19)

8-5-11: METER SERVICE INSTALLATIONS: Upon the payment of a meter installation fee in an amount set from time to time by Resolution of the Council per meter the City will, at its own

expense, provide, and maintain current transformers, if required, and meters to measure electrical consumption by the customer. The fee shall be paid to the City Community Development Services Department prior to the issuance of a building permit. The customer shall provide, install, and maintain the meter base and service in accordance with the City Electrical Code, Service Policy and the specifications set forth in this Chapter. The customer shall provide access to their meter at all reasonable times and shall not obstruct normal access to the meter. If a meter is inaccessible, energy consumption and/or demand may be estimated by the City and such estimates shall be deemed to be final. If the customer refuses or fails to provide access to the meter, or to remove the obstruction to access, the City may terminate the customer's service in accordance with the procedure set forth in this Chapter and the City may thereafter refuse to provide electric services until proper access is provided and a disconnect fee has been paid, as provided in this Chapter. (Ord. No. , 2-14-08; Ord. 2964, 8-14-14; Ord. 3003, 04-23-15; Ord. 3222, 10-25-18; Ord. 3273, 9-26-19)

8-5-12: MEASUREMENT OF ENERGY:

(A) All energy delivered by the City shall, except as otherwise specifically provided, be paid for according to measurement by meter types chosen by the City located at or near the point where the energy is to be delivered to the customer. When a billing error is found or when a meter is found to be more than two percent (2%) fast or slow under the conditions of normal operation, an adjustment of the charges shall be made for any period during which the billing error or malfunctioning meter can be established with reasonable certainty by the party in whose favor the adjustment is to be made. Such adjustment shall be based upon the customer's average monthly consumption for the year preceding the date of the erroneous billing or upon any other method which will more accurately estimate electrical consumption for such period. This period of adjustment will not exceed thirty-six (36) months.

(B) The City will test a customer's meter for accuracy in its measurement of energy. The charge for making such meter test shall be in an amount set from time to time by Resolution of the Council. (Ord. No. , 2-14-08; Ord. 2964, 8-14-14; Ord. 3040, 11-24-15; Ord. 3222, 10-25-18, Ord. 3273, 9-26-19)

8-5-13: FAILURE OF AND TAMPERING WITH METER: If the customer's meter fails to register at any time, the service delivered and energy consumed during such period of failure shall be determined or estimated by the City on the basis of the best available data. No person shall tamper with any meter or install or cause to be installed any appliance, wiring connection or any other device which prevents or is designed to prevent the meter from accurately recording the total amount of energy used on the premises. In the event evidence of tampering of such device is found on the customer's premises, the City may, in addition to other civil or criminal remedies available at law, terminate electric service to the premises in the manner set forth hereafter and may at once remove or order the removal of any such wiring connection, appliance or device at the customer's expense. In such event the City may estimate the amount of energy consumed and not registered, and the customer shall have the burden of proof of establishing such estimate is grossly unreasonable. The customer shall pay the estimated charges for such unregistered energy and the reasonable labor and material costs incurred in the removal of such wiring connection, appliances or devices and the reasonable costs of repair of any damaged

facilities and/or meters. In addition to the foregoing, the City may, as a condition for continued service or reconnection, impose a reconnect fee in an amount set from time to time by Resolution of the Council for any customer whose meter seal has been broken without prior authorization by the City. Such charges may be collected prior to reconnection or may be included in the customer's regular monthly bill. (Ord. No. , 2-14-08; Ord. 2964, 8-14-14; Ord. 3273, 9-26-19)

8-5-14: **TRANSFORMER LOSSES:** When delivery of service is on the primary side of customer's transformers, the City may install its meters on the secondary side of the transformers, and unless otherwise provided in the rate schedule, in determining the monthly consumption of power and energy, transformer losses and other losses occurring between the point of delivery and the meters will be computed and added to the reading of such meters. When delivery of service is on the secondary side of City's transformers the City may install its meters on the primary side of the transformers and, unless otherwise provided in the rate schedule in determining the monthly consumption of power and energy, transformer losses and other losses occurring between the point of delivery and the meters will be computed and subtracted from the reading of such meters. . If a customer requests a larger transformer than what the City would typically install, the City may meter on the primary side to account for increased transformer losses and/or bill the customer on a real power basis using kVar calculations. (Ord. 3222, 10-25-18)

8-5-15: **METER READING:** Meters will be read and bills will be rendered based upon the customer's service month. The customer's service month may be determined solely by the City and may commence at any time during a calendar month. If the meter is not read during the customer's service month, bills may be rendered for the customer's estimated energy consumption based upon the customer's past electrical consumption for the service month in question or upon the typical consumption of a customer having equivalent service and usage requirements. Where a customer's meter must be read in person (e.g. because it is an electromechanical, Advanced Meter Reading (AMR), or a radio-disabled Advanced Meter Infrastructure (AMI) meter), the customer shall be charged a fee in an amount set from time to time by Council. (Ord. 3040, 11-24-15)

8-5-16: **BILLING, COLLECTION, AND TERMINATION OF UTILITY SERVICE:** Billing, collection, and termination for utility service shall be processed pursuant to the City billing, collection, and termination policy established by Council Resolution. (Ord. 2458, 9-12-02; Ord. 3039, 11-24-2015)

8-5-17: **LIABILITY OR INTERRUPTIONS OF SERVICE:** The City shall not be liable for any loss, injury or damage of any kind resulting from the interruption, reduction, loss or restoration of electric service from any cause, including without limitation any such loss by fire, flood, accident, casualty, sabotage, strike, litigation, act of God or the public enemy or failure or inadequacy of distribution, transmission or generation equipment. Without limitation by the preceding enumeration, in no event shall the City be liable for damage to or destruction of any computer, computer software, photocopier or other electric device which is sensitive to spikes, surges, sags, transients, noise, or other electrical interruptions, outages or fluctuations. Any customer owning or operating such equipment shall take all reasonable precautions to protect such equipment by installation of surge suppressors or other protective devices or equipment. The City disclaims any express or implied warranty of merchantability or fitness for a particular purpose, nor shall the

delivery of energy to any customer be construed as or deemed to be the delivery of goods under the Idaho Uniform Commercial Code. (Ord. 2458, 9-12-02; Ord., 2-14-08; Ord. 2964, 8-14-14; Ord. 3039, 11-24-2015)

8-5-18: SHUT-DOWN FOR REPAIRS: For the purpose of making necessary repairs or changes to its generating, transmission or distribution facilities, or to avoid damage to property or to persons the City may suspend delivery of electric service for such periods as may be necessary, and the City shall not be liable for damage of any kind, direct or indirect, as a result of such discontinuance of electric service. (Ord., 2-14-08; Ord. 2964, 8-14-14; Ord. 3039, 11-24-2015)

8-5-19: INTERFERENCE WITH SERVICE: The City may refuse to supply loads of a character that may seriously impair service to any other customers, and the City may disconnect existing service if the customer's load, as determined by IFP, is impairing service to any other customers. Where the customer's use of electricity is intermittent or subject to extreme fluctuations, the City may require the customer to provide equipment to reasonably limit or moderate such fluctuations. (Ord. 3039, 11-24-2015; Ord. 3222, 10-25-18; Ord. 3273, 9-26-19)

8-5-20: PROTECTION OF CUSTOMER'S EQUIPMENT:

(A) The customer is solely responsible for the selection, installation and maintenance of all electrical equipment and wiring, other than the City's meters and apparatus, on the load side of the point of delivery.

(B) All electric motor installations shall include effective protective apparatus, or have adequate protective measures within the motor to accomplish equivalent protection as follows:

(1) Overload and over current protection for each motor by suitable thermal relays, fuses, or circuit interrupting devices automatically controlled to disconnect the motor from the line to protect it from damage caused by overheating.

(2) Open phase protection on all polyphase installations to disconnect motors from the line in the event of opening of one phase.

(3) All polyphase motors for the operation of passenger and freight elevators, cranes, hoists, draglines and similar equipment shall have reverse phase relays, or equivalent devices, for protection in case of phase reversal.

(4) Motors that cannot safely be subjected to full voltage at starting should be provided with a device to ensure that upon energization at full voltage such motors will be disconnected from the line.

(C) The customer shall be responsible to install and maintain surge suppressors, auxiliary power units or other protective devices for the protection of equipment sensitive to voltage spikes, surges, sags, transients, noise interruptions or outages.

(D) The customer shall install and maintain all suitable protective devices and equipment to protect themselves, life and property, from harm or injury from electric current and the City assumes no duty to warn or otherwise assist the customer in the selection or use of electrical appliances, tools, equipment or facilities. (Ord. 3039, 11-24-2015; Ord. 3222, 10-25-18; Ord. 3273, 9-26-19)

8-5-21: ALLOWABLE MOTOR STARTING CURRENTS: No customer shall use any motor having a rated horsepower of ten (10) or greater without first obtaining a permit therefor. Capacitors or other power factor correction equipment is required to maintain a compliant power factor of at least eighty-five (85%) percent on monthly average. The City may require the installation of reduced voltage starting equipment or other equipment necessary to prevent interruptions of electric service within the customer's immediate service area as a condition for the issuance of the permit. Any customer desiring to use such motors shall make written application therefor to IFP, stating the size and serial number of the motor, the intended use, location of business and such other information IFP may require in order to determine the impact the proposed use will have on the system. It shall be unlawful for any customer to use, install or replace any ten (10) HP or greater motor, except as specifically identified in and authorized by a permit issued IFP. (Ord. 3273, 9-26-19)

8-5-22: MAINTENANCE OF EQUIPMENT: The customer shall provide, operate, and maintain all transformers, lines, and equipment on the load side of the point of delivery designated by the City. (Ord. 3039, 11-24-2015; Ord. 3273, 9-26-19)

8-5-23: SECURITY LIGHTING: All exterior security lighting installed after the effective date of this Code, shall consist of overhead circuits, wood, or metal poles. For underground service installations, the customer shall pay the cost of the metal pole and install a concrete base in accordance with City Specifications. The customer shall also be responsible to open and close all trenches for electrical distribution lines. (Ord. 3039, 11-24-2015; Ord. 3222, 10-25-18; Ord. 3273, 9-26-19)

8-5-24: SCHEDULE OF RATES:

(A) BILLINGS: Customers shall be billed for electric energy and demand according to the schedule of rates set forth below and pursuant to the electrical billing rate calculation and billing policy adopted by the Council. No other rates for energy consumption shall apply except by special permit or contract specifically approved by the Council. Customer accounts shall be billed at intervals of approximately every thirty (30) days, provided that failure to so bill shall not relieve the customer of any obligation to pay for electric service when actually billed for such service.

(B) COMMERCIAL RATE: This rate shall be applicable at each point of delivery, for all energy requirements delivered at nominal voltages up to four hundred eighty (480) volts to commercial customers. The Commercial Rate shall be in an amount set from time to time by Resolution of the Council for: Energy Charges; and Demand Charges.

(C) INDUSTRIAL RATE: This rate shall be applicable at each point of delivery, for all energy requirements delivered at nominal primary voltages to industrial customers having electric

service with a minimum capacity of two hundred seventy five kilowatts (275 kW). The Small Industrial Rate shall be in an amount set from time to time by Resolution of the Council for: Energy Charges; and Demand Charges.

(D) HIGH DENSITY LOAD RATE: This rate shall be applicable at a single point of delivery and one location per customer, for all energy requirements delivered to server farms, crypto currency, data processing or similar technological operations with an energy use intensity (EUI) of 250kWh/ft²/year or more and with peak electrical load up to one thousand kilowatts (1,000 kW). Customers shall not create separate entities or other means to circumvent the maximum of one thousand kilowatts (1,000 kW) per customer and location within the City. EUI shall be determined by Idaho Falls Power staff by dividing the minimum operating space required by the energy consuming activity. The High Density Load Rate shall be in an amount set from time to time by Resolution of the Council for: Energy Charges, Demand Charges, Credit Risk Deposit, Distribution Connection Fee.

(E) LARGE SINGLE LOAD RATE: This rate shall be applicable to all single load customers whose aggregate demands at one or more points of delivery on the same premises exceed one thousand kilowatts (1,000 kW). This rate shall be a unique, negotiated rate designed to return to the utility all costs of service that may be fairly and equitably apportioned to the customer using generally accepted rate-making principles, based upon the customer's unique circumstances and service needs. In no event shall such rate cause subsidization of such customer by other classes of customers nor cause subsidization of such other classes by the large single load customer. This rate shall be negotiated within thirty (30) days after the date the customer's demands exceed such amount, provided that, in the event the customer and the utility are unable to agree upon a fair and equitable rate, the utility may unilaterally implement such rate, using the principles stated above or restrict service below the one thousand kilowatts (1,000 kW). This rate shall apply to any new customer following the adoption of this Subsection.

(F) RESIDENTIAL RATE: This rate shall be applicable for all electric service required by residential customers in single private dwelling units and individual family apartments intended for general domestic use only. The Residential Rate shall be in an amount set from time to time by Resolution of the Council for: Energy Charges; and Demand Charges.

(G) NET METERING RATE: Residential or Commercial customers who have an approved Net Metering and Small Generation Interconnection Agreement Application for installation of distributed generation will be classified according to their appropriate net metering rate.

(H) CITY STREET LIGHTING SERVICE: This rate is applicable for electric service for the lighting of public streets, alleys, thoroughfares and public parks and recreational facilities. The City Street Lighting Service Rate shall be in an amount set from time to time by Resolution of the Council for: Energy Charges; and Demand Charges.

(I) SECURITY LIGHTING: This rate is for electric service for lighting private property, including without limitation, parking lots, storage lots, driveways, and yards. The rate shall consist of a fixed monthly charge based upon the rated average minimum lumen output. The Security

Lighting Rate shall be in an amount set from time to time Resolution of the Council. Prior to the delivery of any energy to a security light, the customer shall pay a customer installation fee in an amount set from time to time by Resolution of the Council for each security lighting pole installed.

(J) TEMPORARY OR CONSTRUCTION RATE: This rate is for temporary service that is single phase 120/240 volt and a maximum of two hundred (200) amps. The Temporary or Construction Service Rate shall be in an amount set from time to time by Resolution of the Council for: Construction of Residential Occupancies; and Construction of Nonresidential Occupancies.

(K) LARGE POWER TEMPORARY OR CONSTRUCTION RATE: This rate is for temporary service that is over 120/240 volt with (200) amps. The Large Power Temporary or Construction Service Rate shall be in an amount set from time to time by Resolution of the Council for: Construction of Residential Occupancies; and Construction of Nonresidential Occupancies.

(L) SMALL WIRELESS FACILITIES (SWF): Rates and fees for application, construction, use of IFP structures, electric usage, and access to fiber optic cable shall be in an amount set from time to time by Resolution of the Council.

(M) AMI OPT OUT/NON-REMOTE READ METERING SERVICE: Electrical service to customers who use AMI opt out or non-remote read meters shall continue only where such customers have not been disconnected for non-payment, have not moved from the service location, and have not denied access to City personnel to service or read the customer's meter(s). Where a customer's current AMI opt out or non-remote read meter is not within specifications or is not functioning properly, it shall be replaced with a new meter with the meter type in use by IFP at the time of replacement, with the radio disabled. (B) SERVICE REQUESTS:

(1) The following shall require a fee to be paid as established herein:

(a) Line Extension to Provide Temporary Service. IFP installation and removal of power for a temporary facility to an existing infrastructure within thirty feet (30') of underground tap point or one hundred twenty-five feet (125') from the closest overhead tap point. If such service requires pole installation or transformer placement, an additional fee shall be charged.

(b) Residential Service Line Extension:

(i) Within a Residential Development: IFP provision or extension of existing service lines to a residential structure within a new Residential Development. The fee for this service shall be determined on a "per lot" basis for an individual dwelling unit or on a "per unit" basis for multi-family housing. The fee shall also take into account the density and zoning for the dwelling to be served.

(ii) Within Residential Development: IFP provision of Project Improvements or electrical service lines to a Residential Unit outside of a Residential Development. The customer requesting such project improvements and service lines shall pay all costs of

such Project Improvements and all labor and material costs required, as determined by IFP.

(2) Commercial Service Line Extensions:

(a) Within A Commercial Development: IFP provision of Project Improvements within a commercial planned development in commercially zoned areas. The customer requesting such Project Improvements, shall pay, at the time of building permit issuance, all construction costs for Project Improvements necessitated by the development, based upon an approved engineering design from the developer. In such case, IFP shall supply and install the transformer and meter.

(b) Within A Commercial Development: IFP provision of a commercial electric utility connection within a commercial planned development. A customer requesting the commercial electric utility connection shall complete the trenching, install commercial electric service conduit and pay, in advance, a commercial hook-up fee. Following completion of such preparations, IFP shall make the connections at the transformer.

(c) Not Within A Commercial Development: IFP provision of Project Improvements or a commercial electric utility connection to a commercial structure that is not within a commercial planned development. The customer requesting such Project Improvements or commercial electric utility connection shall pay, in advance, all costs for construction of the Project Improvements, line extensions, and hook-up. Costs, based upon an approved engineering design accepted by IFP, shall be paid at the time of building permit issuance. In such case, IFP shall supply and install the transformer and meter.

(3) High Density Load

(a) The customer requesting such service shall pay, in advance, the Distribution Connection Fee prior to design and engineering.

(b) The customer requesting such service is required to pay all applicable Commercial Service Line Extension fees.

(c) Prior to commencing delivery of electric service, the Customer shall pay their Load Credit Risk Deposit.

(4) Requests For Backup Service: IFP installation and maintenance of backup service to a customer. The customer requesting installation and maintenance of backup service shall pay, in advance, the cost of all System Improvements, Project Improvements, transformer installation, metering, and service lines required to provide backup service.

(5) Requests for Relocation or Modification of Facilities:

a. A customer shall pay all actual costs for the removal, relocation, modification, or underground installation of IFP facilities where there is no change to existing electric service.

b. A customer shall pay the total estimated costs of Project Improvements necessary to accommodate the desired changes for the removal, relocation, modification, or underground installation of IFP facilities where there is a change in the nature of existing electric service.

(6) Secondary Service Connection: A customer requesting connection of electrical service to a building shall pay a one-time fee.

(C) GENERAL PROVISIONS:

(1) Any fees established by this Subsection shall be in an amount established from time to time by Resolution of the Council.

(2) All line extensions and facilities modifications, including conduit provided by the customer, shall become and are deemed IFP property upon installation.

(3) All line extensions and facilities modifications shall be made in accordance with standard construction requirements of the IFP Service Policy adopted by the Council.

(4) Line extensions or facilities modifications shall be made only after the customer has paid the fees and estimated costs established in this Subsection.

(5) Project Improvements where any new single connected load is anticipated to be larger than one (1) MW, shall require a negotiated interconnection agreement between the requester and IFP in addition to the fees and costs for the service. The agreement may take into consideration necessary IFP structure upgrades, such as substation capacity improvements.

(6) Except as provided in Section (B)(4), (B)(5), and (C) of this Subsection, the provisions of this Subsection shall not apply to System

Improvements. (Ord. 3040, 11-24-15; Ord. 3101, 11-10-16; Ord. 3222, 10-25-18; Ord. 3273, 9-26-19)

8-5-30: **WAIVER OR ADJUSTMENT OF FEES:** Council reserves the right to waive or adjust fees in this Chapter (other than net metering fees) upon a finding of good cause to do so where such waiver or reduction supports development or redevelopment in areas identified from time to time by Resolution of the Council. 8-6-1: **PURPOSE:** The accumulation of waste, refuse, trash, garbage, rubbish, and other deleterious substances upon private properties, vacant lots and in streets and alleys constitutes a public nuisance and menace and contributes to the spread of infectious, contagious and epidemic diseases. It is necessary for the preservation of health, safety, sanitation, peace, and public welfare that proper and adequate regulations be adopted to require property owners and occupants to secure containers and receptacles of sufficient kind and size in which to deposit waste, refuse, trash, garbage, and rubbish for collection and removal at regular intervals. The significant cost of acquiring capital facilities, equipment, and vehicles necessary to provide removal of refuse requires the limitation of the number of providers of sanitation services within the City. The City intends to provide automated solid waste removal services to every occupant of the City except where such is impractical because of physical barriers; safety considerations; or technological or equipment limitations. (Ord. 3018, 8-27-15)

8-6-2: **APPLICATION OF CHAPTER:** This Chapter applies to the delivery of solid waste sanitation services to all residential, commercial and industrial properties within the City. (Ord. 3018, 8-27-15)

The Sexton shall fill all graves following burial, trim any grass, trees or shrubbery thereon and keep all spaces in a safe and attractive condition. The Sexton shall care for all grounds and foliage in the City cemeteries. The Sexton shall not permit burial without receipt of a Clerk's Certificate. (Ord. 3214, 09-13-2018)

8-13-2: **PURPOSES:** The purposes of this Chapter are as follows:

(A) To enhance access to and encourage cost effective use of high speed data transmission lines serving publicly-owned facilities.

(B) To enhance the growth and continued economic vitality of the City by providing to the City residents a high speed, modern and efficient means of communicating information and transmitting electronic data.

(C) To manage and regulate competing demands for use of the public right-of-way by minimizing the installation of duplicative communications lines and facilities on, over or under the public right-of-way.

(D) To reduce the cost of maintaining the sidewalk, pavement and public facilities located within the public right-of-way by minimizing the number of pavement cuts and dislocation of other public facilities necessitated by the construction or installation of duplicative communications lines.

(E) To foster competition among communication providers by providing open access to the publicly-owned fiber network.

(F) To reduce the cost of communication services to City residents by eliminating anti-competitive pricing schemes or monopolistic practices which contribute to higher costs for communications services.

(G) To preserve and enhance the ability of private retail communication providers to serve their clientele without undue competition or regulation by a tax-supported entity. (Ord. 2835, 4-22-10)

8-13-3: **OWNERSHIP OF THE FIBER OPTIC NETWORK:** There is hereby established as a division within Idaho Falls Power, the Public Fiber Optic Network System. Management of the public fiber optic network shall be vested solely in Idaho Falls Power, subject to such rules, regulations, and operational guidelines as may be approved by the Council. Notwithstanding the foregoing, to the extent possible all operational costs, charges, expenses, revenues and receipts attributable to or derived from the operation of the public fiber optic network shall be separately accounted for or fairly apportioned between the fiber optic system and the electrical energy generation, distribution & transmission system, in order to establish fair, equitable and non-discriminatory rates for the delivery of fiber optic access, separate and apart from the establishment of electrical. (Ord. 2835, 4-22-10; Ord. 3075, 7-14-16)

8-13-6: **APPLICABILITY TO PUBLIC FIBER OPTIC NETWORK CUSTOMERS:** The provisions of this Chapter shall apply only to the delivery of fiber optic access and related services across the publicly-owned fiber optic network. Nothing herein shall be construed or deemed to regulate the delivery of communications or data services over or across lines, facilities, or equipment owned by a private communications provider, or which may be located in the public right-of-way pursuant to a franchise, lease, or other license or privilege granted by the City. (Ord. 2835, 4-22-10)

8-13-7: **APPLICATION FOR FIBER OPTIC NETWORK ACCESS:**

(A) Fiber optic access shall not be delivered to any customer until the customer or the customer's authorized agent makes an application or until the customer applies pursuant to another approved City process (such as a secured online application process) for delivery of fiber optic access. Such application shall be in such form as may be determined by the Director and the City Attorney. The Director may require appropriate identification of any customer or agent making application for fiber optic access. Customers requesting any fiber optic access which contemplates substantial extensions of the fiber backbone or the construction of significant enhancements or additions to the fiber optic network at public expense, as determined by the Director, may be required to present site plans, improvement plans, feasibility plans, financial statements and financial guarantees contemporaneously with such application and, where the customer is allowed to amortize payments for such extensions, enhancements, or additions, the customer shall allow the City to audit all relevant financial records of such customer. Any customer who willfully gives materially false information in the customer's application or who shall falsely represent the customer's identity shall be guilty of a misdemeanor and fiber optic access to such customer may be subject to summary termination of access.

(B) Requests for dark fiber access: In the event installation of dark distribution fiber is necessary in order to provide the access requested by the customer, the cost of designing and installing such distribution line shall be borne by the customer, subject to the customer's recovery of a portion of such cost from a subsequent customer, in the manner set forth in this Chapter. The Director may require the initial customer to pay the estimated costs of such design and installation to the City prior to and as a condition for the commencement of the installation of such distribution fiber by the City. The design and/or installation of such distribution fiber may be performed by the City or by an independent contractor hired by the City. In the event the installation is performed by an independent contractor, the City shall deliver a copy of the contractor's bid to the customer prior to its issuance of a notice to proceed to such independent contractor. In the event the actual

costs of such construction exceed the initial estimate by the Director, such excess shall be paid to the City within fifteen (15) days after the delivery of an itemized invoice to the customer by the City, reflecting the total amount of the design and construction costs incurred by the City in constructing such distribution fiber extension. In the event such construction costs are less than the estimate, then such difference shall be returned to the initial customer within thirty (30) days after the substantial completion of such distribution fiber extension. In no event will the City undertake the design or construction of a new distribution line, if the customer is delinquent in their payment of the access charges set from time to time by Resolution of the Council or is otherwise in default of the customer's obligations under this Chapter. Upon approval by the Director and where the amount to be amortized does not exceed ten thousand dollars (\$10,000), payment for distribution fiber may also be made in monthly installments not to exceed a total of sixty (60) months. Written agreement approved by the Director and signed by the customer shall be required for amortization. Amortization shall not be allowed if the Retail Internet User for whom the distribution fiber is being constructed or installed has paid the wholesale customer for such distribution fiber or has agreed to pay for such distribution fiber in full. Amortization shall not be allowed until the wholesale customer has demonstrated a satisfactory payment history of not less than one (1) year with the public fiber system unless approved by the Director. If the Retail Internet User for whom such distribution fiber has been provided thereafter discontinues the customer's service agreement with the customer with whom the City has executed an amortization agreement, such Retail Internet User shall not be allowed to again use such distribution fiber unless the new service provider for such Retail Internet User agrees to assume and pay the entire balance then owed on the account of such distribution fiber. (Ord. 2835, 4-22-10; Ord. 3003, 4-23-15; Ord. 3075, 7-14-16; Ord. 3274, 9-26-19)

8-13-9: RATES AND SCHEDULES: Fiber optic access supplied by the City shall be billed in accordance with the schedule of rates set forth in this Chapter and as set from time to time by Resolution of this Council. The schedule of rates is designed to provide monthly rates for access supplied to the customer. Selection of appropriate rates shall be based on the customer's choice of available services, subject to the approval of the Director. (Ord. 2835, 4-22-10; Ord. 3075, 7-14-16)

8-13-10: LIMITATIONS UPON DELIVERY OF FIBER ACCESS:

(B) Access will be supplied under a given rate schedule only to such points of delivery as are adjacent to the public fiber optic system of the City and provided that the public fiber optic system has the technological capability to meet the customer's service needs under the rate schedule applicable thereto. The City shall not be obligated to construct extensions or install

additional fiber access facilities necessary to meet a fiber customer's needs except as explicitly authorized by the Director.

(C) Retail customers must be connected to Idaho Falls Power's electrical system in order to connect and remain connected to the Fiber Network.

(D) No backbone fiber pair shall be leased for a period of less than one year. (Ord. 2835, 4-22-10; Ord. 3274, 9-26-19)

8-13-11: (RESERVED):

8-13-12: LIMITATIONS UPON NUMBER OF FIBER STRANDS: Consistent with the stated purpose of this Chapter to promote competition among communication service providers in Idaho Falls, no customer may lease or use more than six fiber pairs, twelve strands, at any given time, except as expressly provided for in a written agreement authorized by the Council.

(Ord. 2835, 4-22-10; Ord. 3274, 9-26-19)

8-13-13: ACCESS AND RIGHTS OF WAY: City fiber optic service shall be provided only where the customer, without cost to the City, provides the City access and a right of way for the City's lines and apparatus serving the customer, over, across, and upon the property owned or controlled by the customer. The customer shall permit City access to the property and shall provide access to the City's lines and apparatus, including ingress and egress, at all reasonable hours and at any time during an emergency or a City construction project. Access and right of way provided by the customer or property owner pursuant to this subsection shall not require specific prior notification from the City to the customer or property owner of need for ingress or egress. By acceptance of or application for City fiber optic services, the customer shall be deemed to waive any claim for damages by the City in conducting City's customary and routine repair, maintenance, construction, and other operations within such right of way. Failure to provide access and right of way pursuant to this subsection may result in the disconnection of City electric and/or dark or lit fiber optic service to the customer until access is accomplished by the City. City lines and apparatus includes City electrical and fiber equipment, power poles, transformers, underground conductors, wires, meters, pedestals, communications boxes, fiber optic splice cables, optical network terminations (ONTs). Access to City lines and apparatus shall not be impeded or prevented by the presence or construction of any permanent or semi-permanent barriers or structures such as a fence, shed, enclosure, tree, shrub, planting, rock, monument, or the like. (Ord. 2835, 4-22-10; Ord. 3274, 9-26-19)

8-13-14: BILLINGS: Billings for fiber optic access shall be rendered based upon the terms and conditions of the customer's fiber agreement(s) or, if there is no agreement that governs the billing conditions the customer will be billed following the standard City utility billing policies, practices, and rates as set from time to time by Resolution of the Council. Billings shall be deemed paid upon receipt at the office of the City Treasurer. Bills may be rounded to the nearest even dollar. (Ord. 2835, 4-22-10; Ord. 3274, 9-26-19)

8-13-15: VOLUNTARY TERMINATION OF FIBER OPTIC ACCESS:

(A) In the event that any customer desires to discontinue receiving dark fiber optic access from the City, the customer shall give advance notice in writing to the Director of such desire.

Customers will be responsible for all fiber optic access made available to the customer's premises until the date set forth in the customer's notice and for any construction or distribution costs provided or incurred by the City in order to make access available to such customer. In the event any customer fails to give written notice in the manner set forth above, the customer shall be responsible for any and all bills or monthly service charges incurred until such notice is given, or until another customer makes application to receive fiber optic access at the same point of delivery, regardless of whether or not the original customer actually utilized the fiber optic access for their own purposes. Customers who wish to discontinue lit fiber optic service are required to comply with applicable City fiber optic service policies.

(B) In the event any Wholesale Customer terminates service prior to the expiration of one (1) year from the date service was first commenced, then the entire unpaid balance for the service charges remaining for such one (1) year period, shall become immediately due and payable upon delivery of the customer's notice of termination. (Ord. No. 2736, 2-14-08; Ord. 2835, 4-22-10; Ord. 3075, 7-14-16; Ord. 3274, 9-26-19)

8-13-16: **LIABILITY FOR INTERRUPTIONS OF ACCESS:** The City shall not be liable for any loss, injury or damage of any kind, including but not limited to consequential, special and punitive damages, resulting from the interruption, reduction, loss or restoration of fiber optic access from any cause, including without limitation any loss by fire, flood, accident, casualty, sabotage, terrorist act, strike, labor slow-down, act of God or the public enemy or failure or inadequacy of distribution fiber, backbone fiber or appurtenant facilities. The City disclaims any express or implied warranty of merchantability or fitness for a particular purpose and the delivery of fiber optic access to any customer shall not be construed as or deemed to be the delivery of goods under the Idaho Uniform Commercial Code. By acceptance of fiber optic access, the customer agrees to, and shall be deemed to, waive any and all claims for damage or loss to the customer's lines, facilities, or communications equipment caused by any act or omission of the City, however, nothing herein shall be deemed or construed as a waiver of any claim for damage or liability arising out of the gross negligence or malicious act of the City, or its agents, unless otherwise specified in a separate service level agreement. (SLA). (Ord. 2835, 4-22-10; Ord. 3039, 11-24-15 Ord. 3274, 9-26-19)

8-13-17: **SHUT-DOWN FOR REPAIRS:** For the purpose of making necessary repairs, upgrades or changes to its backbone or distribution facilities, or to avoid damage to property or to persons, the City may without prior notice to the customer suspend fiber optic access for such periods as may be reasonably necessary to make such repairs, upgrades or changes and the City shall not be liable for damage of any kind, direct or indirect, as a result of such discontinuance of fiber optic access, unless otherwise specified in a separate service level agreement. (Ord. 2835, 4-22-10; Ord. 3039, 11-24-15; Ord. 3274, 9-26-19)

8-13-18: **TEMPORARY SUSPENSION OF DEMAND BY CUSTOMER:** Whenever a customer suspends operation due to strikes, action of any governmental authority, act of God or the public enemy or other force majeure, the customer shall continue to be obligated to pay the monthly fiber optic access charge provided in the rate schedules set forth in this Chapter and for any distribution costs established in his or her Fiber Optic Access Application, irrespective of such temporary suspension. (Ord. 2835, 4-22-10; Ord. 3039, 11-24-15; Ord. 3274, 9-26-19)

8-13-19: **INTERFERENCE WITH ACCESS:** The City may refuse to supply fiber optic access where there is a possibility that the delivery of access may seriously impair or disrupt access to any other customers, or which may disrupt the operation of the public fiber optic backbone. The City may also disconnect fiber access if the customer's connection is seriously impairing access to any other customers. The City may also, without prior notice, suspend or disconnect access to any customer using the public network for the purposes of delivering any virus, spam, spyware, denial of service attacks, or any other illegal or malicious purpose which has the effect of or is intended to impair or impede the operation of the public fiber optic system, the internet, or any public or private computer or computer network connected thereto or for the purpose of obtaining illegal or unauthorized access to other computers or networks connected to the public fiber optic system. (Ord. 2835, 4-22-10; Ord. 3039, 11-24-15; Ord. 3274, 9-26-19)

8-13-20: **PROTECTION OF CUSTOMER'S EQUIPMENT:** The customer is solely responsible for the selection, installation and maintenance of all equipment and wiring, other than the City's apparatus, on the customer side of the point of delivery. The customer shall install and maintain suitable protective devices and equipment to protect life and property from harm or injury and the City assumes no duty to warn or otherwise assist the customer in the selection or use of such protective devices. (Ord. 2835, 4-22-10; Ord. 3039, 11-24-15; Ord. 3274, 9-26-19)

8-13-21: **BACKBONE EXTENSIONS:** Extensions of the fiber backbone ring may be made at the sole discretion of the City. Access to the backbone ring will be provided through the construction of distribution system facilities as described in this Chapter. The City reserves the right to upgrade, overbuild and rebuild the network in any fashion which may result in new backbone or distribution and service drop boundaries. (Ord. 2835, 4-22-10; Ord. 3039, 11-24-15; Ord. 3075, 7-14-16; Ord. 3274, 9-26-19)

8-13-22: **DISTRIBUTION SYSTEM EXTENSION:** An extension of the distribution system is any continuation of, or branch from, the nearest available existing distribution fiber or new branch from the nearest available Backbone Access Point. The City may make extensions of the distribution system at customer expense as provided for in the schedule of rates set forth in this Chapter and as set from time to time by Resolution of this Council. All distribution construction work shall be undertaken solely by the City and at the expense of the customer. An estimate of construction costs will be provided for customer review and approval prior to beginning any construction activity and the City may require the customer to pay such estimate in full prior to the commencement of such system extension. In the event that actual costs exceed the estimate, the customer shall pay such excess before fiber optic access is provided. Customers may elect to pay for the construction costs of such extension in full at the time of connection to the publicly owned fiber system or may, with the approval of the Director, amortize such costs over a period not to exceed sixty (60) months, where the amount to be amortized does not exceed up to ten thousand dollars (\$10,000). Notwithstanding the customer's participation in the construction costs of any extension of the distribution system, ownership and control of such extensions shall remain solely with the City. (Ord. 2835, 4-22-10; Ord. 3039, 11-24-15; Ord. 3075, 7-14-16; Ord. 3274, 9-26-19)

8-13-23: DARK DISTRIBUTION DESIGN: All new connections between the backbone fiber and the end use location shall be designed by authorized City personnel. Distribution will begin at the most appropriate Backbone Access Point or Access Node as determined by the Director and shall run to a patch panel installed at the desired customer location. Distribution spurs, connecting the backbone to the Access Nodes, will be constructed of single mode fiber cable conforming to City standards. Routing will follow the public right-of-way and be placed on publicly owned poles to the maximum extent possible. Service drops will terminate at a patch panel in the end user's premises. The patch panel shall be supplied by the City and the cost thereof shall be included in the customer distribution costs payable in accordance with this Chapter. All customers shall allow authorized personnel of the City access to the customer's patch panel at all reasonable times and any customer who refuses to allow such access shall be subject to termination of fiber access in the manner set forth in this Chapter. (Ord. 2835, 4-22-10; Ord. 3075, 7-14-16)

8-13-24: FEES FOR SERVICE: Fees associated with dark and lit fiber optic access provided by the City shall be set from time to time by Resolution of the Council. (Ord. 2835, 4-22-10; Ord. 2964, 8-14-14; Ord. 3075, 7-14-16; Ord. 3274, 9-26-19)

8-13-25: TAMPERING WITH FIBER OPTIC NETWORK PROHIBITED: No person shall connect to, adjust, tamper with or make any alteration or addition to the Fiber Optic System, without having first obtained express permission from the Director. Any person who willfully or maliciously causes damage to, interference with or obstruction to the efficient operation of the Fiber Optic System shall be guilty of a misdemeanor. Any person who causes such damage shall in addition to any criminal fines or penalties, be liable to the City for any reasonable damages which may be proximately caused by such damage or interference. Such amounts may be included upon the customer's regular monthly billing statement for utility service and upon the customer's failure or refusal to pay such charges, fiber optic access or any other public utility service provided by the City, may be terminated in accordance with the procedures set forth in this Chapter. (Ord 2835, 4-22-10; Ord. 3039, 11-24-15; Ord. 3274, 9-26-19)

8-13-26: THEFT OF FIBER OPTIC ACCESS: It shall be unlawful for any person to make any connection to or install or construct any facility or equipment with the specific intent of obtaining fiber optic access from or making use of the Fiber Optic System, without paying for such access or without paying the fees and charges set forth in this Chapter. (Ord 2835, 4-22-10; Ord. 3039, 11-24-15; Ord. 3274, 9-26-19)

8-14-5: EROSION CONTROL PLAN:

(A) the contents and form of the erosion control plan shall be established by the City Engineer. The Building Division shall make such information available to contractors, developers and property owners upon request.

(B) The erosion control plan shall address the best management practices (BMPs) to assure the following standards or practices are followed during land disturbing activities:

- (1) Erosion, sediment, or discharge of pollutants, resulting from construction activities, which enter onto public property or private property not controlled by the permit holder, shall be eliminated to the maximum extent practicable.

- (2) All necessary action shall be taken to minimize the depositing and tracking of mud, dirt, sand, gravel, rock or debris on the public rights-of-way. The owner of the site of the construction activity or the permit holder shall be responsible for any clean-up of the public rights-of-way or private property not controlled by the permit holder necessitated by any tracking or depositing of mud, dirt, sand, gravel, rock, or debris, or shall reimburse the City for any expenses incurred by the City to clean-up the applicable area.
- (3) Construction ramps shall be constructed of material that will not erode or deteriorate under adverse conditions and shall not be placed in a manner so as to interfere with the passage of storm water runoff.
- (4) No debris, dirt, aggregate or excavated materials, or construction materials shall be placed on the public rights-of-way unless permitted by the City Engineer or his designee. In addition, public sidewalks shall not be removed, blocked, or otherwise rendered unusable by construction activity, equipment or materials, or portable toilets, unless a safe, usable alternate walkway, which meets the design standards of the American with Disabilities Act, is placed on the same side of the right-of-way by the contractor.
- (5) No owner or lessee of real property shall allow the property to be unoccupied, unused, vacant or undeveloped after the topsoil has been disturbed or the natural cover removed, unless control measures are undertaken to prevent mud, sand, dirt, and gravel from mitigating offsite and entering the public rights-of-way or a storm water system. Soil or aggregate stockpiles shall not be stored on unoccupied, vacant, unused, or undeveloped property unless appropriate control measures are in place and reviewed and permitted by the City Engineer. This provision is not meant to prevent individual homeowners from accepting title of land that is not yet landscaped, and such homeowners will not be in violation of this Ordinance.
- (6) All temporary erosion and sediment control measures shall be removed after final site stabilization. Trapped sediment and other disturbed soil areas resulting from the removal of temporary measures shall be permanently stabilized within thirty (30) days from the removal of the temporary measures.
- (7) Grading, erosion control practices, sediment control practices, and waterway crossings shall meet the design criteria set forth in the Best Management Practices for Idaho Cities and Counties, published by the Idaho Department of Environmental Quality.

- (8) Clearing, except that necessary to establish sediment control devices, shall not begin until all sediment control devices have been installed and have been stabilized.
- (9) Phasing shall be required on all sites greater than thirty (30) acres with the size of each phase to be established at plat review and as approved by the City Engineer. (Ord. 2886, 11-10-11; Ord. 3003, 4-23-15)

A copy of the erosion control plan shall be maintained at the Construction Site at all times while construction work is being conducted. To obtain inspections, the permit holder shall notify the Building Division at least two (2) working days before the start of construction, installation of sediment and erosion measures, completion of final grading and close of construction season or final landscaping.

(B) The purpose of inspections is to determine compliance with the control plan and its effectiveness. All inspections are to be documented in written form.

(C) Filing of an application with the Building Division is deemed approval and authorization for such inspections at reasonable times. (Ord. 2886, 11-10-11; Ord. 3003, 4-23-15)

8-14-7: TRAINING AND CERTIFICATION:

(A) Any person who successfully completes a City approved training program in construction erosion control shall be recognized as a certified erosion control contractor. Fees for the issuance of such certification shall be set by resolution of the City Council.

(B) City certifications shall expire on December 31 of the third calendar year following issuance of the certification. A change of employment has no effect on the validity of such certification. (Ord. 2915, 02-28-13)

(C) Certifications from other cities, states or associations may be accepted upon approval of the City Engineer. (Ord. 2886, 11-10-11)

Such notice shall contain a description of the violation and provide a time period in which corrective action must be taken.

(B) If the corrective action is not taken, a stop work order may be placed on the site or a citation may be issued.

(C) If no reasonable effort at corrective action is made or if necessitated by an emergency, the City Engineer may cause the corrective action to be performed and shall assess the actual and administrative costs of such performance against the property owner.

(D) A stop work order may be issued at any time Construction Activities or Changes in Grade are being undertaken without a valid, current permit. (Ord. 2886, 11-10-11)
