

CONSTRUCTION UPDATE

The Idaho Transportation Department completed the first year of the \$95 million investment in the repair and maintenance of I-15 between the Utah and Montana borders. In the first year (2017), these projects resulted in:

- 157 lane miles of new pavement.
- Repairs on 11 bridges.
- Replacing over 62,000 feet of guardrail.

2018

ITD will continue its work to repair and resurface I-15. The department will communicate with you in the spring about 2018 projects, dates and anticipated traffic impacts.
