

CITY OF IDAHO FALLS
CURB AND GUTTER REPLACEMENT PROGRAM

Applications for 2020 will be accepted starting on April 24th, 2020

The City of Idaho Falls has budgeted a limited amount of money for the replacement of deteriorated concrete curb and gutter located in the public right-of-way along property frontage in Idaho Falls. Such funds will be used to reimburse property owners an amount which is approximately 50% of the usual and customary rate established by the City's Engineering Department for furnishing and installing concrete curb and gutter. For **2020**, this amount has not been determined.

Upon receipt of a completed **Program Application** (C&G Program Application Form), the **City** will conduct an inspection and eligibility determination of the curb and gutter proposed for replacement and then advise the Property Owner of the amount of the reimbursement. If accepted for participation by the City, all deteriorated curb and gutter along the entire frontage of the subject property must be replaced.

Upon signing a **Participation Agreement** with the City, the **Property Owner** will be responsible for hiring a **Contractor** (2020 Licensed Concrete Contractors) licensed to perform work within the rights-of-way of the City of Idaho Falls. Reimbursement will not be allowed for work performed by the Property Owner unless he or she is a Licensed Contractor. When the work is completed according to City of Idaho Falls Standard Specifications and Drawings and is inspected and accepted by the City Engineering Department, the **Property Owner** will be reimbursed according to the **Participation Agreement**.

Any landscape work (such as replacing dirt and grass sod) needed adjacent to the curb and gutter replacement work shall be the sole responsibility of the Property Owner. If any arrangements are made with the Contractor for landscape repair, the Property Owner should have that stated in writing from the Contractor prior to start of curb and gutter replacement work.

The City reserves the right to discontinue funding of this program at any time and it incurs no obligation for work which has not commenced prior to the date funding is discontinued. All Participation Agreements will be signed upon a first-come-first served basis. Reimbursement will not be made for work performed prior to the date of the Participation Agreement.

The Property Owner may print, complete and sign the Program Application and deliver it to the City of Idaho Falls Engineering Department at 380 Constitution Way or email the signed form to ifeng@idahofallsidaho.gov or fax to 612-8570.
