

### **Animals Traveling at the Idaho Falls Regional Airport**

The City of Idaho Falls understands the need for passengers to travel with their animals. In order to accommodate those passengers, the City will only allow animals into the airport that are pets being transported by air, service animals, or emotional support animals used in accordance with applicable law.

All animals must be completely under control, restrained by leash, or properly confined in a traveling container.

### **Animals Traveling by Air- Check with Your Carrier**

Policies regarding passengers traveling with animals may vary between air carriers.

All questions should be addressed to the airline that you will be traveling with prior to arriving at the airport.

### **Pet Relief Areas**

Designated pet relief areas are located at the north and south end of level 1 of the airport.

Waste bags and trash receptacles are available, and all guests are expected to clean up after their animals.

Passengers traveling with service animals that require a pet relief area post-security should contact an airline employee for assistance.
